Under Heavy Bombardment

Bloody Fighting Erupts At Besieged U.S. Camp

Israeli Craft Shoots Down Egypt Plane

By The Associated Press

Israeli warplanes shot down an Egyptian MIG today over the Gulf of Suez, an Israeli army spokesman said.

He said the plane was hit by cannon fire from an Israeli fighter, exploded in the air and crashed in Egyptian territory. No parachute was seen.

Earlier, Israeli spokesmen reported Egyptian commandos slipped across the Suez Canal for the third time in three days to raid an Israeli army position. They battled the Israelis with light arms and grenades.

Israeli army spokesmen said the Arabs crossed north of Port Taufiq at the southern end of the canal under a covering artillery barrage late Monday night. They said one Israeli soldier was killed.

A communique from Cairo said the Egyptians "occupied the Israeli position and killed all the soldiers there and destroyed two armored cars." It added that the Israelis tried to make a counterassault "but our forces foiled the attempt" and returned safely to their base carrying two wounded.

On Sunday 4th graf 126

On Sunday night three Egyptians were killed in a raid on the same installation. Tht Israeli radio's Arab language service reported today shrapnel found in the three bodies was from Soviet shells, indicating the Egyptians were killed by covering fire from their own guns.

No casualties were reported from the Saturday raid.

The commando raid followed two heavy artillery battles at the southern end of the canal Monday in which Egypt claimed Israeli forces suffered heavy losses. There was no confirmation of this from Tel Aviv.

A communique from Cairo said Monday's artillery battles resulted in "the destruction of enemy reinforcements" which the Israelis had set up in the Shatt and Port Taufiq areas. It said there was only light damage on the Egyptian side.

Early today Arab saboteurs blew up an oil pipe at Kishon fishing harbor on the outskirts of Haifa, Israel's biggest port city with a population of 210,000. Thick black smoke hung in the sky as the firemen battled the blaze for more than an hour.

Police set up roadblocks aroundthe area and began a search for the saboteurs.

Another announcement from Cairo said President Gamal Abdel Nasser has replaced the top two Egyptian air force officers, apparently in a move to improve air force standards.

The report said Gen. Mustapha el Hennawi had been replaced as air force commander in chief by Gen. Aly Baghdadi, and Gen. Hassan Kamel had been succeeded as director of air defense operations, by Gen. Mohammed Aly Fahmy.

U.S. Convoy Rips Into Encircling Troops Of Enemy

By GEORGE ESPER
Associated Press Writer

SAIGON (AP) — Bloody fighting raged around the besieged Ben Het Special Forces camp Monday and it sustained its heaviest artillery bombardment since May 1. But U.S. spokesmen said today a convoy broke through the encircling enemy troops with badly needed ammunition and supplies.

The U.S. Command said the convoy, the first to reach Ben Het in a week, pushed through by road from Dak To. Previously supplies had to be dropped by cargo planes and only medical evacuation helicopters risked landing because of the daily artillery barrages.

South Vietnamese infantrymen backed by U.S. artillery and planes killed 105 North Vietnamese troops around the camp Monday in some of the heaviest fighting there since May 1. South Vietnamese casualties were five killed and 15 wounded.

North Vietnamese gunners poured in 195 artillery, mortar and recoilless rifle shells into the camp 280 miles northeast of Saigon. The U.S. Command reported some of the American Green Beret advisers and artillery crew stationed there were killed and wounded, but it declined to give figures.

South Vietnamese headquarters said four civilian irregulars and four of their dependents were killed in the shelling.

A South Vietnamese spokesman said the infantrymen were sweeping the area around Ben Het to "take pressure off." But despite the convoy breakthrough he said it was still hard to tell who controls the area.

Military spokesmen said a North Vietnamese regiment of up to 2,000 men has surrounded Ben Het and the camp has been under daily bombardment from heavy artillery in Laos, Cambodia and the six-mile stretch between Ben Het and the border.

"The most important thing to remember is that we are free to launch operations and the camp is still there," said the government spokesman.

MORE

American spokesmen have said air strikes are not too effective against the enemy artillery because the Russian-made 85mm guns are emplaced in mountain caves and protected by steel doors when not in use.

But U.S. 7th Air Force tactical bombers found a break in the heavy cloud cover that has shrouded Ben Het for several days and were able to strike North Vietnamese troops encircling the camp Monday.

Spokesmen said they bombed within a mile of Ben Het.

"We rolled in again and again, blanketing the area with ordnance," said 1st Lt. Leslie C. Jensen, 25, of Edinburg, N.D., one of the pilots.

Fiery Plane Crash In Miami Kills 10

MIAMI (AP) — A DC4 cargo plane with an engine ablaze roared into a busy street Monday, cutting a four-block swath of flaming destruction.

Ten persons were killed. One building was destroyed, eight damaged. Flames and flying debris destroyed or damaged 42 cars and trucks.

A police spokesman estimated the over - all property loss at about $1 million.

The known dead included the plane's four crew members and six persons on the ground. Another dozen were injured.

Hours after the crash, a half mile northeast of Miami International Airport, rescue workers probed the smoldering wreckage and rubble for more bodies.

"We're sure there will be more," said Police Lt. James Reese.

A Red Cross worker said he believed there were at least two more bodies in the debris.

The Dominicana Air Lines craft was attempting to circle back to the airport from which it had just departed, one of its four engines was out and a second was smoking.

Maxine Burmester's television winked out at 3:40 p.m. as the plane sheared power lines a block and a half from the apartment building where she lives and bounced off a roof top.

"It was coming at a terrific speed," she said. "I couldn't move before it hit."

A wing struck the corner of the Burmesters' apartment building about a dozen feet from where she sat.

The plane crumpled the second story of a medical center, skipped over a bakery, plowed a furrow in the roof of the next building, took the corner off an auto transmission shop, knocked over the pumps of a gasoline station, and slammed burning into Charles Knapp's auto body shop, killing four persons in the shop.

Pieces of the plane and debris from the buildings flew forward. One engine demolished a car 20 yards down busy 36th Street. Other pieces sailed 50 to 100 yards farther.

The plane spewed burning fuel from its own tanks and more flaming gasoline poured from the ruptured service station pumps. It took firemen half an hour to bring the fires under control.

In Bid To Back Nixon ABM Stand

Laird Seen As Redefining Soviet Nuclear Capability

WASHINGTON (AP) — Senate critics of President Nixon's Safeguard missile defense program claim Defense Secretary Melvin R. Laird has redefined in mid-controversy the Soviets' first-strike nuclear capability in an attempt to support the administration position.

Sens. J. W. Fulbright and Albert Gore made the charges followng Laird's joint appearance Monday with CIA Director Richard Helms before a closed session of the Senate Foreign Relations Committee.

Laird and Helms were called to testify in the wake of Safeguard critics' claims that the Pentagon and CIA had conflicting views on Soviet missile intentions.

Fulbright, the Arkansas Democrat who heads the committee, and Gore, D-Tenn., said they felt the meaning of "first strike capability" had been completely changed by Laird's Monday testimony.

Laird now applies the term to Soviet potential for knocking out American Minutemen sites with the new powerful SS9 rocket, the senators said, without considering United States Polaris submarines.

Fulbright said he had always thought the term meant "the capacity to destroy the retaliatory capacity of your opponent—a knockout blow."

"If the term has no meaning other than a particular weapon, then it would seem the justification for ABM dissolves," Gore said.

Fulbright said the secretary's testimony showed less of a threat to the United States from the Soviet Union than was indicated in Laird's first appearance and "less of a reason than ever before" to proceed with the ABM.

Laird said he would stand on his previous testimony about the first strike power of the triple war head SS9 Soviet missile.

Knowles Due Nixon Bid On Health Post

Finch, Long-Time Ally Of President, Winning Flight

WASHINGTON (AP) — Robert H. Finch, long a confidant and political ally of President Nixon, apparently has won his fight to have Dr. John H. Knowles nominated as the nation's No. 1 health officer

But the victory raises the specter of a party-splitting battle in the Senate, with the administration and a coalition of generally liberal GOP Young Turks pitted against the venerable Republican leader, Everett M. Dirksen.

It was learned Monday night Nixon is almost certain to nominate Knowles as assistant secretary for health and scientific affairs in the Health, Education and Welfare Department.

Knowles, HEW Secretary Finch's long-time choice, has been opposed by the powerful and conservative American Medical Association and its prominent ally, Dirksen.

Knowles is director of Massachusetts General Hospital in Boston, and until Monday the AMA opposition had been attributed to his advocacy of such things as universal health care plans.

But a Wheaton, Md., physician, Dr. James J. Nordlund, said in a letter to The Washington Post that Dirksen's administrative assistant, John R. Gomien, had told him that "because of the heavy financial support given the Republicans during the recent elections, the American Medical Association was insistent on nominating one assistant secrttary for health and scientific affairs."

Pegler won the Pulitzer Prize for reporting in 1941.

He moved to southern Arizona in 1942, living quietly near Tucson. He donated some articles to various publications and continued his opinion column for King Features syndicate until Aug. 13, 1962, when they parted company because of "irreconcilable differences' after 18 years.

Pegler was 67 when he and his third wife, Maude Towart, 46, of Cannes, France, were married at Midland, Tex., in 1961. His first wife died in 1955. Pegler and the former Mrs. Pearl Doane were married May 11,

Harrisburg Reported Quiet After Violence

HARRISBURG (AP) — Quiet was restored to this capital city early today after police clashed with some 200 Negroes just off the fringe of the downtown area.

More than two dozen State Police joined Harrisburg police in putting down the disorder. Tear gas was used and 10 persons were arrested.

An undetermined number was injured but less than a score was treated at local hospitals. Authorities said only a few were detained for further treatment.

Vote Set Wednesday

Surtax Extension Faces House Test

WASHINGTON (AP) — President Nixon's surtax extension bill is apparently set for its first House floor test Wednesday with both sides saying any vote will be close.

The Democratic leadership made final checks Monday and seemed to be satisfied the House Rules Committee would vote the bill out on a "closed rule" basis, which means a straight yes or no vote, with no amendments considered.

Surtax opponents contemplate challenging the "closed rule," but they have been putting their main emphasis on defeating the measure. Earlier, House liberals had attempted to persuade the committee to allow a vote on extending the income tax surcharge for less than a year.

The Nixon proposal, endorsed by a split committee vote, would continue the tax at 10 per cent for six months and five per cent for another six months. The tax expires June 30 unless extended.

If the effort to defeat the no-amendment rule fails, opponents then must work to defeat the measure outright. Passage depends on solid Republican support plus a generous slice of the Democratic majority.

Rep. Charles A. Vanik, D-Ohio, opposes the bill and he has written to all House Democrats that the measure must be killed to force quicker action on general tax reform.

The Nixon bill will pass, said Rep. John W. Byrnes, R-Wis., but "we still will have to get 80 or 90 Democratic votes. I do not believe the Democratic leadership would be so ineffective as not to produce those 80 or 90 votes."

Ohio House OK's Action For Building Of Bridges

COLUMBUS, Ohio — Legislation authorizing the Ohio Bridge Commission to construct spans across the Ohio River passed the Ohio House by a 78-13 vote Monday night and was sent to the Senate for concurrence.

The bill, sponsored by State Reps. Clarence L. Wetzel, R-Columbiana, and Arthur R. Bowers, D-Steubenville, was introduced as an emergency measure following the closing of the Chester Bridge at East Liverpool last month.

While the bill would permit the bridge commission to construct a span across the Ohio at East Liverpool and other river sites, it is expected West Virginia will build those bridges since that state owns the river.

However, proponents of the bill pointed out, the legislation will permit the bridge commission to build a bridge if West Virginia is unable or unwilling to do so.

Closing of the Chester Bridge prompted meetings with the governors of both states and their highway engineers. It was agreed during those meetings that West Virginia would buiild another bridge at Chester and that Ohio would see to it that

City Will Ask Funds To Aid Park Project

Council enacted legislation Monday night authorizing Planning Coordinator Don Eckert to apply for $12,525 in federal aid to help with a $21,050 city program for improvements in Thompson Park.

The legislation provides the application will be filed with the Ohio Department of Natural Resources, seeking the funds under the Federal Land and Water Conservation Act of 1964.

Eckert pointed out the amount of aid sought from the federal government represents about 50 per cent of the contemplated program.

A whole series of improvements is contemplated at the park, including:

Seats and lighting for the new amphitheater; more picnic tables; provision of hiking trails; planting creeping vines along side the new football field and at other places where erosion might occur.

Blacktopping of the volleyball court; blacktopping of two of the tennis courts; construction of a new skating pond and erection of four new rest rooms.

The application will be filed through the state agency, as it helps administer the federal funds on a statewide basis. The resolution says the application ultimately will be processed by a federal agency in charge of outdoor recreation.

Warning Given On Grill Use In Poorly-Ventilated Areas

LISBON — Many people create a hazard by using charcoal grills in poorly - ventilated areas, warns Dr. M. K. Singer, Columbiana County health commissioner.

The accident prevention unit of the Ohio Department of Health advises against the indoor use of charcoal unless adequate ventilation is provided.

Dr. Singer said, "It is possible that large quantities of carbon monoxide — enough to kill you — can accumulate in a room as the result of inadequate oxygen (air) which causes incomplete combustion of the fuel."

Carbon monoxide is very treacherous, Dr. Singer explained, because it is a tasteless, odorless, invisible gas which can overcome a person without warning. Symptoms may be a throbbing headache, tightness in the forehead, drowsiness, nausea and unconsciousness. If exposure is prolonged, death can result.

Another common hazard with "cooking out," Dr. Singer said, "is the adding of a petroleum fuel to a hot surface or fire to get a blaze quickly." This can explode and many times has caused severe burn injuries and even death, he said.

Warning Given On Grill Use In Poorly-Ventilated Areas

LISBON — Many people create a hazard by using charcoal grills in poorly - ventilated areas, warns Dr. M. K. Singer, Columbiana County health commissioner.

The accident prevention unit of the Ohio Department of Health advises against the indoor use of charcoal unless adequate ventilation is provided.

Dr. Singer said, "It is possible that large quantities of carbon monoxide — enough to kill you — can accumulate in a room as the result of inadequate oxygen (air) which causes incomplete combustion of the fuel."

Carbon monoxide is very treacherous, Dr. Singer explained, because it is a tasteless, odorless, invisible gas which can overcome a person without warning. Symptoms may be a throbbing headache, tightness in the forehead, drowsiness, nausea and unconsciousness. If exposure is prolonged, death can result.

Another common hazard with "cooking out," Dr. Singer said, "is the adding of a petroleum fuel to a hot surface or fire to get a blaze quickly." This can explode and many times has caused severe burn injuries and even death, he said.

After Heated Debate

Ohio House Approves 4% Receipts Tax On Airlines

COLUMBUS, Ohio (AP)—The Ohio House took a routine agenda Monday night and turned it into a rip-roaring session that lasted until nearly 11 p.m.

A bill to levy 4 per cent tax on the gross receipts of airlines doing business in the state passed 76-14 but only after heated debate and a major amendment.

Tacked on by Rep. Robert Netzley, R-7 Laura, the amendment would return money collected by the tax to local governments rather than the state's general fund. It Passed 63-28.

An analysis of the bill given legislators said it would raise $6 million annually. But the prime sponsor, Rep. Norman A. Murdock, R-70 Cincinnati, said the figure would be $2.6 million.

Rep. Joseph P. Tulley, R-37 Mentor, said the bill was unconstitutional and would be in violation of Supreme Court decisions that a state cannot tax firms involved in interstate commerce.

"We're not a body of jurists," countered Murdock. "It's not up to this body here tonight to decide if this bill is constitutional."

"Airlines are not carrying their fare share," said Rep. William G. Batchelder, R-23 Medina. "The buses are, the autos are and most certainly the railroads are."

A bill concerning blood tests in drunken driving cases was referred to the Judiciary Committee after Rep. John A. Bechtold, R-65 Cincinnati successfully tacked on an amendment that passed 48-42.

Tulley, prime sponsor of the measure, then asked its referral to the committee. He said the amendment would gut Ohio's implied consent law.

Main object of the bill was to make doctors and nurses immune from assault and battery arrests in taking blood in drunken driving cases.

But a portion of the bill repeated language in a House bill passed a few weeks ago. That lowered the alcoholic content necessary for conviction from .15 to .10 per cent.

Bechtold's amendment provided that if a person is presumed guilty over the .10 figure he must be presumed innocent under it. Police often take those under into court, he said.

He had offered the same amendment unsuccessfully not only when the percentage bill was in the House but also two years ago when the implied consent law was under debate.

The consent law provides that a driver who refuses to take an alcoholic-content test automatically faces a six-month suspension of his license.

In other action, the House after another lengthy debate passed 78-13 a bill to permit the Ohio Bridge Commission to issue bonds for bridge construction and repairs.

It paves the way for Ohio to issue bonds for bridge construction across the Ohio River. The charging tolls.

The Senate concurred 28 - 0 with House amendments on a bill to set an 8 per cent interest rate ceiling on bonds and notes sold by the state and local governments.

The bill now goes to the governor. Since it contains an emergency clause, it would become effective upon his signature.

The original Senate bill would have completely removed the interest rate ceiling and allowed bonds and notes to be sold at the interest rate prevailing in the market.

William Pitt the Younger was only 24 years old when he became prime minister of Great Britain in 1782.

Must Stop Sea Seizures

American fishing vessels have been seized from time to time in recent years by nations on the west coast of South America, ostensibly for violating what they contend is their territorial waters.

These nations claim jurisdiction over waters extending 200 miles out to sea from their shores.

The United States and most other maritime nations recognize only from 3-to 12-mile territorial limits. The wide gap between this range and the 200-mile figure requires negotiation, for the seeds of war clearly exist within this differ-shores.

THE SEIZING OF SEVEN American fishing boats by Ecuador Friday points up the already thorny problem. One or more of the tuna boats was fired upon by the Ecuadorians.

Sooner or later some of the American personnel aboard the boats will be killed and the incidents will grow more explosive.

If the United States does not recognize the 200-mile jurisdictional boundary claimed by the South American nations, then it would seem our Navy ought to give protection to ships flying the American flag in what we believe to be international waters.

The seizure of American vessels actually amounts to a form of piracy, the loot being the exorbitant fines assessed for the claimed territorial "violations."

The latest seizures, coming on the heels of recent "arrests" by the Peruvian navy, are being compared with the Pueblo's capture in some respects.

Apparently more and more countries are coming to believe they can harass the United States and its citizens with impunity.

IT IS TO BE HOPED the jurisdictional problem of offshore waters can be resolved in the near future although many previous attempts have failed to achieve this. Surely this is an urgent matter deserving prompt attention from our government and substantial effort to solve it.

It is not a pleasant thought to contemplate bringing our fighting seamen back from Vietnam only to send them to the waters off South America to protect our fishing fleets from molestation on the high seas.

And yet we cannot permit this type of brigandage to continue.

End To Hunger?

County Executive Eugene H. Nickerson of Nassau County on Long Island, N.Y., is on record with a statement which, if it could be applied to every county in the nation, would end hunger in the United States.

Mr. Nickerson has said, "No person will be allowed to go hungry in Nassau County."

To make this a reality, Nassau County will open special stores next month in 30 neighborhoods to provide free food on a daily basis to an estimated 16,000 needy families. The food will be made available by the federal government.

Eligible persons are all who are receiving public assistance and others who have monthly incomes of less than $150 for an individual and $325 for a family of four.

The program calls for the neighborhood distribution centers to be located in buildings leased by the county and to operate five days a week. Most of the women who will operate the centers as "storekeepers" have been receiving public assistance.

Undoubtedly the eyes of many persons involved in welfare work across the nation will be on Nassau County.

Numbers Alone, Not Enough

With everybody and his uncle deciding how many American soldiers should be brought home from the war in South Vietnam and on what schedule, it might be a good idea if some of us would study a report prepared by United States personnel on the combat efficiency of the South Vietnamese troops.

Some of the sternest critics of the war have contended the South Vietnamese never will be ready to fight the North Vietnamese by themselves unless we pull out and confront them with the necessity of fighting, dying or surrendering by themselves.

BUT THE REPORT INDICATES this contention is not factual. The conclusion reached by those who prepared the report is that the South Vietnamese army is quite capable of defeating the Viet Cong right now.

Intelligence estimates indicate the South Vietnamese forces greatly outnumber the enemy. Strength figures show only 20,000 main force Viet Cong troops with 70,000 local force troops plus 110,000 North Vietnamese regulars.

Approximately a million South Vietnamese troops plus 540,000 Americans and 100,000 other Allied troops oppose them.

The problem lies in the way the war is being fought, actually the way Washington has chosen to fight it.

Basically the war is and has been a struggle between superior Allied numbers compelled to fight a tightly restrictive defensive strategy against the wide-ranging, wasp-like offense of the enemy.

The report concludes there never has been enough manpower on the Allied side to jump about bottling up enemy infiltration routes when they are tied down to fixed positions defending bases, cities, villages and hamlets against possible attack.

Without the mobility of the American troops and their jets, helicopters and big guns, it would be almost impossible for the South Vietnamese to accomplish what they plus the Americans and their other allies have not been able to do, despite their numbers.

THE CHARGE THAT the South Vietnamese won't fight can also be refuted. Battle statistics show at least 39,307 were killed in the last 15 months. This is twice as many as the Amerians and their other allies lost in the same period.

Americans eagerly look to the time when all of our troops can be brought home. But those among us who cast aspersions on the South Vietnamese soldiers without facts to support their charges do our nation a disservice.

Judy Garland

Frances Gumm from Grand Rapids, Minn., made it big in show business, entertained millions and made money for herself and many others.

She knew the ecstasy of fan adulation after a superb performance and knew the sting of audience rejection.

Her personal life was a roller coaster ride that neither fame nor fortune could slow down permanently. Judy Garland is dead at 47 — perhaps a victim of too many experiences crowded into too few years.

The shining stone in the gifted star's legacy of accomplishments is the portrayal of Dorothy in the timeless "Wizard of Oz."

It was her big break in the movie field and wins new fans for Judy Garland each time it is repeated.

Her fans and critics alike will join one of her early co-stars, Mickey Rooney, in his hope that she at last "has found that rainbow."

Hazards Of Cost Control

By Art Buchwald

WASHINGTON — One of the things to come out of the congressional hearings on defense costs is that the Pentagon takes a dim view of those who come up with evidence that the Defense Department is being overcharged. For his diligence, A. E. Fitzgerald, an Air Force efficiency expert who first revealed that the C-5A supertransport would cost more than $2 billion over the original estimate, was taken off Air Force cost-control programs and assigned to review construction of a 20-lane bowling alley in Thailand.

Something like this must be happening all the time:

"WHAT IS IT, Alweather?"

"Sir, I've just been going over the figures on the Consolidated Armchair contract, and it turns out that they're charging us 50 per cent more for armchairs than their original bid. I think we've got an ironclad case."

"Now wait a minute, Alweather. Let's not go off half-cocked. What makes you think they're charging us double?"

"Here are the invoices. Consolidated Armchair promised to deliver 5,000 armchairs at $10,000 an armchair. Instead, they're charging us $15,000 an armchair. I've checked, and there is no reason for the added cost."

"That's not for you to say, Alweather. I know the men at Consolidated Armchair. I've been to their homes. I've been on their yachts. I've been hunting and fishing with them, and I can't believe they would overcharge us unless they had a good reason."

"That's probably so, sir. But the figures don't substantiate it. I think we should cancel the order."

"ARE YOU OUT of your mind? Do you realize how many armchair generals we have in the Pentagon? If we don't get armchairs for them, how are they going to fight the war?"

"I'm not against the generals having armchairs. But since I'm in charge of the cost-control program, I feel it's my duty to report that we're overpaying for them."

"Alweather, there is nothing I admire more than a conscientious public servant — someone who has the taxpayer's interest at heart. At the same time, we have to worry about our relations with defense contractors. How do you think they're going to react when we accuse them of overcharging us for their armchairs? They have feelings, too."

"I'm aware of that, sir, but my job is to keep the books straight for the Defense Department, and I don't think they should get away with it."

"Of course, and I couldn't agree with you more. But what about the effect this cancellation will have on Wall Street? What about the widows and orphans who own Consolidated Armchair stock? We have to think of them, too."

"I disagree. Our concern should be to get the best armchair at the best price. If they can't meet the price they bid, they should be penalized for it."

"Alweather, don't you realize what you're doing? If you reveal these overcharges, you'll be playing into the hands of our enemies on Capitol Hill. Do you want to be responsible for giving the military-industrial complex a bad name?"

"NO, SIR. But how can I do my job?"

"You don't have to worry about that any more, Alweather. We're transferring you out of the cost-control department and giving you more responsibility."

"Where am I going?"

"We're putting you in charge of the Pentagon visitors' parking lot. We've been having a lot of problems there lately, and you're the only one who can straighten them out."

Political Block Busting

NEW YORK — By the dawn's early light — after a post-primary election night of headquarters-hopping — the sophisticated insider can see several truths, now self-evident.

Victor Riesel

In this nation there is a drift to the right, and a rift on the left. The citizenry, weary of power brokers, irritated by being p r e s s u r e-cooked, no longer is deliverable or predictable.

These are the verities of the mayoral primary of primaries through which this big city struggled psychedelically last Tuesday night. The liberals are cannibalizing each other. The conservatives are not.

No liberal bloc can deliver — whether it is liberal labor, liberal Democrat, liberal Republican. This was true in Los Angeles where the liberal-labor coalition futilely threw in everything it had to elect Tom Bradley. And now it's as true on the Atlantic as on the Pacific.

In New York the very same liberal-labor coalition split. Some fought the Democrats. Some campaigned for John V. Lindsay, whom the Republican eastern establishment had seen as a possible successor to Richard Nixon in 1976.

THERE WAS JUST no bloc delivery of votes to any candidate. The White House couldn't deliver. The Cabinet couldn't. The old "Ike" coalition of Tom Dewey and Herbert Brownell couldn't. The Kennedys couldn't. The labor movement couldn't — neither its Committee on Political Education (COPE), nor the Teamsters, nor the auto workers. The ethnic and racial groups couldn't. Of course, the nonexistent Democratic party machine couldn't. Nor the old-line moderate Republicans.

And they all did try to get their men nominated.

Debonair John V. Lindsay lost though he had powerful labor support as well as White House and New York clubhouse backing.

Behind "Big John" — albeit quietly — were such knowledgeables in power politics as the Seafarers' Paul Hall. His union contributed money, advice, and some manpower. With him was Brooklyn waterfront leader Tony Scotto, young head of a powerful — and the biggest — longshoremen's Local. Its dockwallopers worked hard for Mayor Lindsay.

His Honor has worked hard for them. He is a "good waterfront mayor." For example, he got the abandoned famed Brooklyn Army shipping base reopened for commercial ships. And in this coalition were the thunderous District Council 37's American Federation of State County and Municipal Employees, 125,000 members locally led by the soft-voiced militant Victor Gotbaum. His leader is labor's most aggressive orator, Jerry Wurf, national president of the union which made history during its sanitation workers strike in Memphis.

THERE WERE OTHER hard-hitting unions in the Lindsay coalition — but they were driven back by the "hate John" sentiment raging through the city especially among the 60,000 school teachers and middle-aged, middle-class folk who fear the streets at night. And so the conservative Republican, Conservative Party challenger, State Sen. John Marchi, won. It must be noted that this state has the only successful Conservative Party in the land. It polled a million votes in the state, half of it in this city, last year. It's the most overlooked, unreported political phenomenon in the country.

Next year it will try to drive Gov. Nelson Rockefeller into comfortable retirement along with U.S. Sen. Charles Goodell, whom they call an "instant liberal."

Meanwhile back on the Democratic range, on which there were five candidates riding against each other for the mayoralty nomination, labor also was breaking its back and straining its coffers. The big push was led by the "quiet man," Louis Stulberg, president of the International Ladies' Garment Workers' Union, symbol of political sophistication here and the biggest labor outfit in the city and state. It threw in considerable money and poured considerable manpower onto the streets for ex-Mayor, Genial Bob Wagner. With him, too, were Harry Van Arsdale, national treasurer of the International Brotherhood of Electrical Workers and the 1.2 million member Central Labor Council which he heads. Ambassador Robert Wagner lost.

THOUGH HE HAD Kennedy camp support, and the backing of the regular party, and the nostalgia of the middle class, Bob Wagner ran second to the so-called law and order candidate, Mario Procaccino, the city controller.

Even Norman (Make New York the 51st State) Mailer lost his psychedelic constituency — the young people. Quixotically, his votes came from the middle-aged who loved his racy "Deer Park" more than they took to his swift campaigning. When last I talked to Mailer, he had seen the light. He is a "left-conservative," said he. And certainly he would "take Conservative Party support," he added.

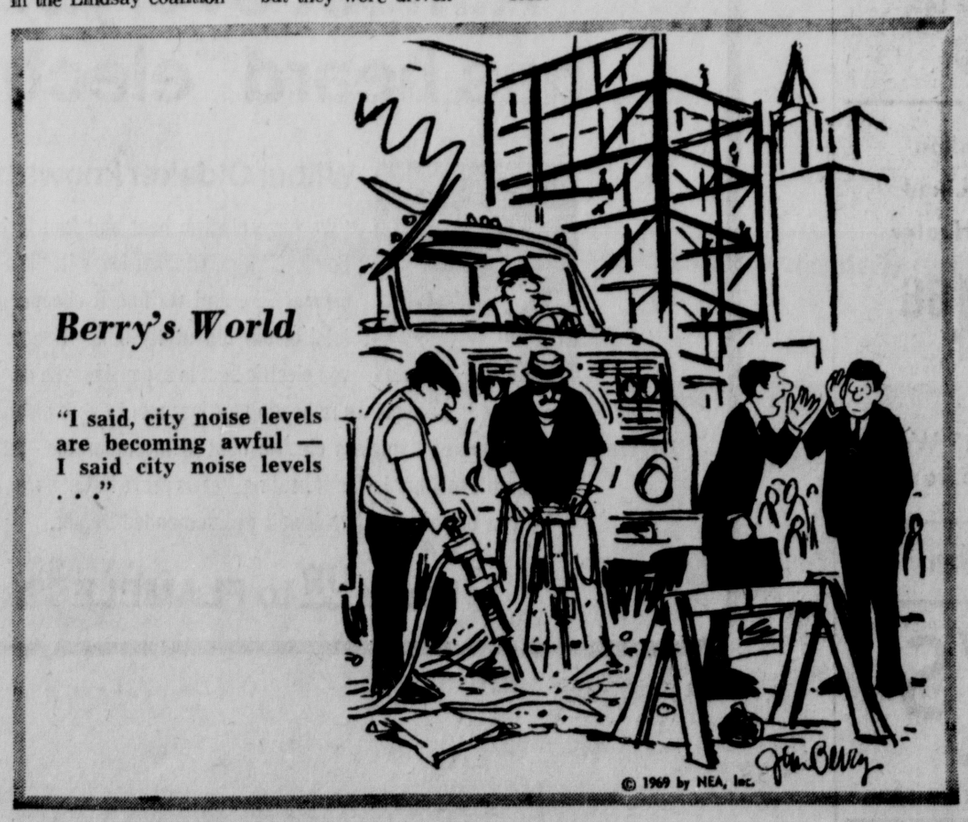
But the people spoke — strangely. They did not heed the White House-GOP Eastern establishment-militant labor-young liberal coalition which fought for the handsome John V. Lindsay. They did not heed the traditional liberal-labor Democratic Party alliance.

They rejected all blocs. They voted their emotions. After the long night, it seemed to the observer that the new day brought with it new politics.

Odd Facts

The modern word "tariff" originated from the name of the town of Tarifa, on the north coast of Africa, whence early - day Moorish pirates once levied tribute on passing ships.

The nation of Iran changed to its present name from that of Persia by official decree in 1935.



DAVID LAWRENCE

Stop Hanoi With Bombs

WASHINGTON — Negotiations to end the Vietnam War have taken on a most tragic aspect. Here in America the debate as to the number of troops to be withdrawn in the next few months preoccupies the nation. Yet there isn't the slightest sign that the Hanoi government and its Communist allies are ready to reciprocate in any way.

Today President Nixon is arguing in public with the critics about how many troops will be brought home by the end of next year. Although there are vague references to optional measures which might be found necessary if an agreement is not reached at the Paris conference, the emphasis now is nevertheless on withdrawal of American forces.

EVER SINCE THE BOMBING of North Vietnam was halted on Nov. 1, 1968, American troops have been killed by the thousands and many more wounded. Why, it is being asked, doesn't President Nixon notify the North Vietnam government that, unless all its attacks on South Vietnam are suspended at once, the United States will order a resumption of the bombing and that this will be far more intensive in scope than ever before?

It certainly is frustrating to the military commanders of the United States in Vietnam to have their hands tied as use of the customary methods of bringing an enemy to terms is forbidden by the government in Washington. Indeed, it begins to look more and more as if the objective now is primarily to satisfy critics in Congress and what is theorized to be public opinion throughout his country.

But appeasement has never paid, and a much bigger war may develop in Asia and Europe if the most powerful nation in the world brings its troops home from Vietnam without having really discouraged the Communists from further acts of aggression.

Criticism of the Vietnam War has been heaped on both the Johnson and Nixon administrations. Many people who do not really know the dangers are still saying: "Let's use the money for domestic purposes."

But this is a short-sighted view. By its indifference to what was happening in Asia in 1939, the United States made possible the attack on Pearl Harbor by the Japanese in 1941, and we then entered World War II.

Virtually the same thing happened in the 1916 campaign when the Democrats triumphed in the re-election of President Wilson with the slogan, "he kept us out of war!" Thus the enemy was encouraged to believe that the United States wouldn't enter the conflict in Europe. Unarmed merchant ships had been torpedoed in 1915, with American lives lost, and the Berlin government, after an exchange of notes, had promised not to do it again. But in February 1917 unrestricted submarine warfare was ordered by Berlin, and American vessels couldn't travel on the high seas without facing the possibility of being sunk and the death of the passengers aboard.

WILL HISTORY REPEAT itself as an isolationist policy brings on a big war? Will American troops be withdrawn from Vietnam as thousands are being killed and wounded, and the enemy refuses to stop the fighting even while a peace conference is going on? If Red China and the Soviet Union establish puppet governments throughout Asia, will not the safety of Australia, New Zealand and the Philippines, as well as the future of the countries in the Middle East and Western Europe be threatened? Will Japan not be dragged in, too?

These questions are pertinent because the Communist ambition to wield power everywhere in Asia is apparently motivated by the same ruthlessness of purpose as the recent increase of Soviet armies in Communist-bloc countries in East Europe and the emerging threats to the independence of West Germany.

The United States has the air power to bring Hanoi to terms. Such a step, if taken, would inform the world that America has not made its sacrifices in vain and intends to adhere to the principle that peoples, large and small, must have the right to determine their own form of government without outside interference or acts of aggression.

Must Stop Sea Seizures

American fishing vessels have been seized from time to time in recent years by nations on the west coast of South America, ostensibly for violating what they contend is their territorial waters.

WASHINGTON — Negotiations to end the Vietnam War have taken on a most tragic aspect. Here in America the debate as to the number of troops to be withdrawn in the next few months preoccupies the nation. Yet there isn't the slightest sign that the Hanoi government and its Communist allies are ready to reciprocate in any way.

Today President Nixon is arguing in public with the critics about how many troops will be brought home by the end of next year. Although there are vague references to optional measures which might be found necessary if an agreement is not reached at the Paris conference, the emphasis now is nevertheless on withdrawal of American forces.

EVER SINCE THE BOMBING of North Vietnam was halted on Nov. 1, 1968, American troops have been killed by the thousands and many more wounded. Why, it is being asked, doesn't President Nixon notify the North Vietnam government that, unless all its attacks on South Vietnam are suspended at once, the United States will order a resumption of the bombing and that this will be far more intensive in scope than ever before?

It certainly is frustrating to the military commanders of the United States in Vietnam to have their hands tied as use of the customary methods of bringing an enemy to terms is forbidden by the government in Washington. Indeed, it begins to look more and more as if the objective now is primarily to satisfy critics in Congress and what is theorized to be public opinion throughout his country.

But appeasement has never paid, and a much bigger war may develop in Asia and Europe if the most powerful nation in the world brings its troops home from Vietnam without having really discouraged the Communists from further acts of aggression.

Criticism of the Vietnam War has been heaped on both the Johnson and Nixon administrations. Many people who do not really know the dangers are still saying: "Let's use the money for domestic purposes."

But this is a short-sighted view. By its indifference to what was happening in Asia in 1939, the United States made possible the attack on Pearl Harbor by the Japanese in 1941, and we then entered World War II.

Virtually the same thing happened in the 1916 campaign when the Democrats triumphed in the re-election of President Wilson with the slogan, "he kept us out of war!" Thus the enemy was encouraged to believe that the United States wouldn't enter the conflict in Europe. Unarmed merchant ships had been torpedoed in 1915, with American lives lost, and the Berlin government, after an exchange of notes, had promised not to do it again. But in February 1917 unrestricted submarine warfare was ordered by Berlin, and American vessels couldn't travel on the high seas without facing the possibility of being sunk and the death of the passengers aboard.

WILL HISTORY REPEAT itself as an isolationist policy brings on a big war? Will American troops be withdrawn from Vietnam as thousands are being killed and wounded, and the enemy refuses to stop the fighting even while a peace conference is going on? If Red China and the Soviet Union establish puppet governments throughout Asia, will not the safety of Australia, New Zealand and the Philippines, as well as the future of the countries in the Middle East and Western Europe be threatened? Will Japan not be dragged in, too?

These questions are pertinent because the Communist ambition to wield power everywhere in Asia is apparently motivated by the same ruthlessness of purpose as the recent increase of Soviet armies in Communist-bloc countries in East Europe and the emerging threats to the independence of West Germany.

The United States has the air power to bring Hanoi to terms. Such a step, if taken, would inform the world that America has not made its sacrifices in vain and intends to adhere to the principle that peoples, large and small, must have the right to determine their own form of government without outside interference or acts of aggression.

Weirton Captain Credited In Air Strike In Viet

SAIGON (AP) — Two Air Force captains, Joseph J. Redden, 26, of Denver, Colo., and Frank D. Hale, 39, of Weirton, West Va., were credited with destroying or damaging six fortifications and six bunkers in a strike against a Viet Cong staging area Monday.

The Air Force said the two officers also set off one secondary explosion in the air strike in the southern part of South Vietnam.

"The target was located along a canal line and was comprised of fortifications, bunkers and a docking area which apparently was used to unload sampans," Redden said. "It was a good target, about 100 meters long and 50 meters wide.

"The forward air controller marked what he wanted hit and we went at it. The secondary explosion came when we hit one of the fortifications. They were probably using it for a storage area."

The mishap damaged the entire right side, the roof and the right front of the car, registered to Ralph Shaffer of 312 Market St. It was timed at 11:56. Police cited young Shaffer for driving at speeds in excess of those warranted by road and weather conditions.

Another youth's auto was damaged Monday at 8:30 p.m. when it struck a culvert at Dresden Ave. and Trentvale St., officers said.

The crash damaged the right side of the 1965 sedan driven by Dewayne L. Greathouse, 17, of 744 Price St. and registered to Gary Greathouse of the same address.

Greathouse told police he was driving north about 35 miles an hour when he swerved his car to the right to avoid an auto which was straddling the center line.

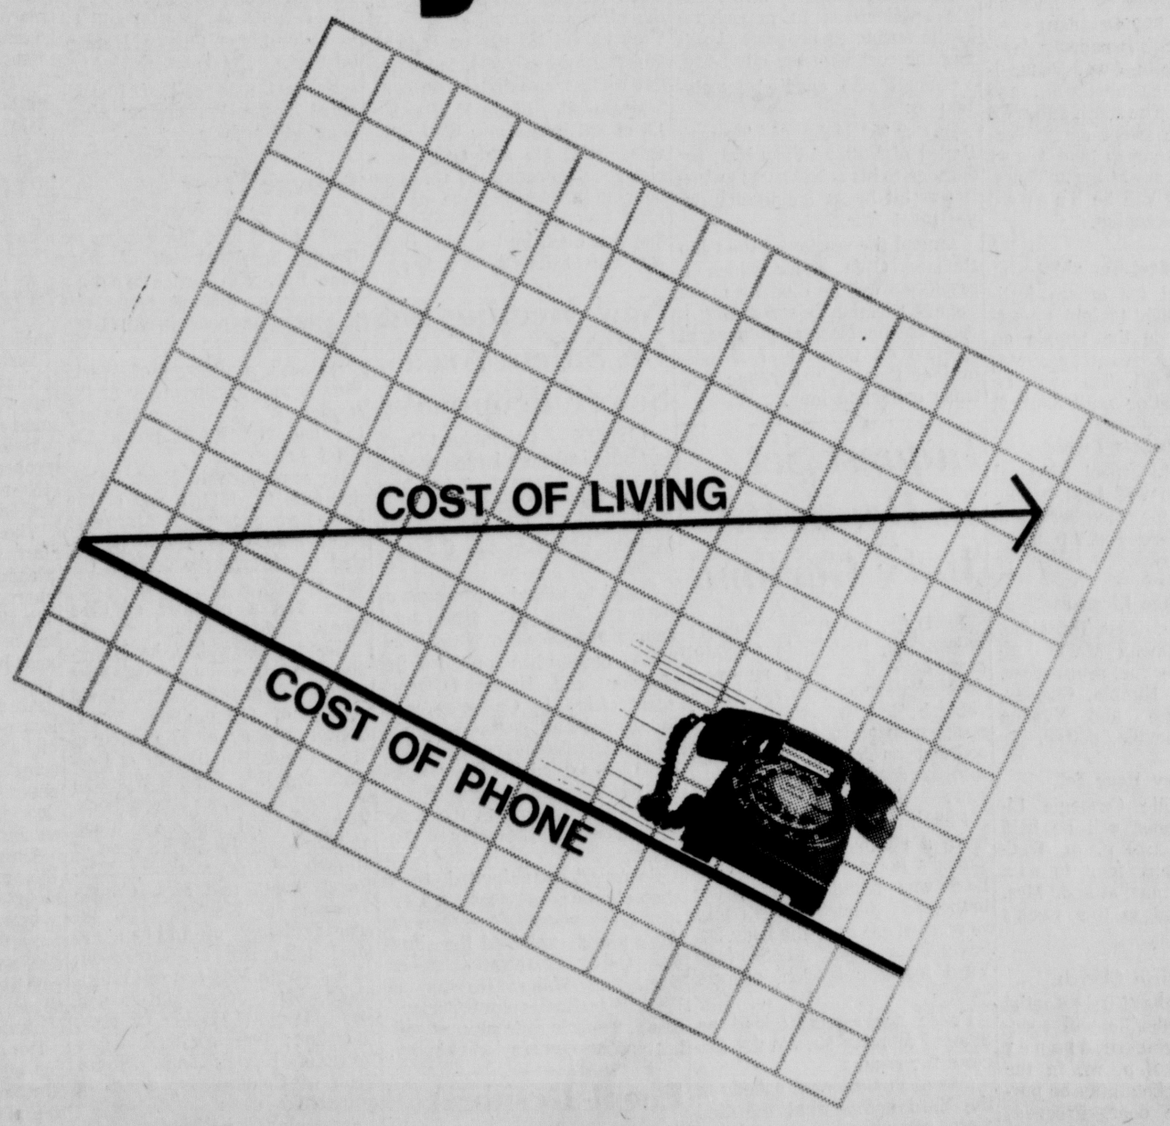
It all depends on how you tilt it



All we want to do is make a point. ☐ The way we've tilted the chart, it looks as though the cost of living for the past nine years has stayed the same, while the cost of your telephone service has gone down. Now we all know the cost of living hasn't stayed the same. Prices have been climbing steadily. Yes – but not quite all of them. ☐ Local telephone rates haven't changed since 1959. (And long distance rates have been reduced eight times since 1959.) And with most everything else going up, local telephone service becomes more and more of a bargain *just by staying the same.* So really, no matter how you tilt it, the facts still prove there *is* a bargain left in the world. Your telephone service.

Inquest Set In Death Of Judy Garland

LONDON (AP) — Reports speculating that Judy Garland may have died from an overdose of sleeping pills are "pure rubbish," a Scotland Yard spokesman says. A coroner has ordered an inquest Wednesday into the death of the 47-year-old star.

Police said Monday there were a number of pills in the singer's home when Miss Garland was found dead in her bathroom Sunday. The pills were nowhere near the body but have been taken to Scotland Yard for examination, officers said.

Police doctors performed an autopsy Monday but did not disclose the results.

"As of this moment nobody in the Yard knows what she died from, nor will we until we know the results of the autopsy," a police spokesman said.

Doctors said following the autopsy they were taking some of Miss Garland's organs to a Scotland Yard laboratory for further examination. The organs were not identified.

She had cirrhosis of the liver and had been told by a London surgeon that she was "living on borrowed time."

The physician, Dr. Phillip Lebon, said he and another doctor had examined Miss Garland eight years ago and estimated then she had no more than five years to live.

Lebon said he had 'read the riot act" to Miss Garland and had warned her not to drink. She was known as a heavy drinker and for years had consumed many kinds of pills.

Driver Fined On Operating 'Unsafe' Auto

A 20-year-old driver who allegedly attempted to elude police was fined $15 and costs today in Municipal Court on a charge of operating an unsafe auto.

Judge Samuel M. Chertoff decreed the penalty for David R. Veon of 35 S. Market St., East Palestine, who was cited Monday night at 9:51 by Patrolman Dwight Garvey.

The officer alleged that Veon's 1960 model car had two bald tires, a leaking exhaust system and an inoperative emergency brake and turn signal.

Garvey said he spotted the auto ascending Avondale St., creating "a lot of noise." When he turned his cruiser to halt the auto, Veon attempted to elude the officer by turning onto Illinois Ave. and then onto Oak St., the officer reported. He said Veon halted his car on Oak St. and ran into a house, but came out when requested to do so.

Meanwhile, Linda K. Bender, 18, of 726 Broadway, Wellsville, was fined $15 and costs on a charge of speeding 70 miles an hour in a 60-mile zone on the East Liverpool - Wellsville Rd. She was cited by the Ohio Highway Patrol June 17 at 9:20 p.m.

LISBON — Columbiana County Commissioners have scheduled another meeting on the proposed Salem Northeast Sewer Project for 1:30 p.m. Monday at their office in the Courthouse.

New Date Set In Action On Junked Autos

Municipal Judge Samuel M. Chertoff today granted a continuance until Friday in a case in which a Pleasant Heights man is accused of failure to remove junked autos from his property after receiving a written notice from Safety - Service Director Robert E. Vodrey.

The defendant is Bert E. Ehrhart of 1916 Lisbon St., who pleaded guilty today to the charge filed by Vodrey Monday. The director said he sent a written notice on June 9 to Ehrhart and his wife, Georgianna, advising them to remove alleged junked vehicles from their premises within 10 days. The affidavit alleged they had failed to comply. The action was taken under a section of the City Code that bans storage of junked cars on private property.

Ehrhart told Judge Chertoff this morning that two old vehicles that belonged to his sons-in-law were removed from the property Monday night. He said one auto body remains and it will be removed tonight or Wednesday. The director confirmed Ehrhart's statements.

The court then continued the hearing until Friday to allow Ehrhart to remove the last of the alleged junk. The judge warned Ehrhart that each day of continued violation may be construed as a separate offense, under the ordinance.

Bridges

highways leading to the proposed span be improved.

During hearings, it was pointed out that Steubenville could benefit the same way as East Liverpool, since there is talk of building another bridge across the river.

Presently, the bridge commission cannot construct bridges. It can only purchase facilities already built. The bill also would allow the body to construct bridges across waters within Ohio.

Proponents of the bill beat back an amendment which would have limited to 8 per cent the amount of interest the bridge commission could pay on bonds issued for construction of bridges.

As passed, there is no stated limit on the rate of interest.

The bridge commission could only build toll facilities, with the provision that after the bridge bonds are paid off the spans could be given to the Highway Department for maintenance as toll-free facilities.

Sealy Raps Rhodes On County Tax Plan

CLEVELAND, Ohio (AP) — Gov. James A. Rhodes' county income tax proposal is "at best a stop-gap and patchwork approach that will not achieve fairness for the taxpayer," says Albert H. Sealy.

Sealy, former state legislator from Dayton and announced Republican candidate for governor, made the statement at a news conference here Monday. He said the state needs a complete restructuring of its tax base, including a personal income tax.

Rich Allen of the Philadelphia Phillies struck out 161 times in 152 games last season. It was two less than the National League record.

Another Step Reported For Lines' Extension

Chester Council was advised Monday night of another important step twoard receiving federal aid for the proposed extension of water and sewer lines.

It was announced that the Brooke, Jefferson and Hancock County Planning Commission has informed Housing Urban Development of its approval of the project in the Lycria, Orion and Alba areas.

Such approval is necessary for federal aid.

Councki advised residents of 6th St. Hill that the city cannot help finance seal-coating of the street now because it was not included in the original program.

Residents, who offered to pay a portion of the cost, were advised to contact the M.R.W. Asphalt Co. of Hanoverton and request seal-coating be done at the same time they seal-coat streets on the program, if they are willing to meet the entire cost.

Passed on second and final reading was an ordinance creating a two-hour parking zone on the east side of 2nd St. from Carolina Ave. to Church Alley and on the west side of 5th St. from Carolina Ave. to Church Alley.

A report was received from Jack Evans, county road commissioner, that Carolina Ave. would be resurfaced this summer. Council requested that the repairs not interfere with the firemen's carnival July 28-Aug. 2.

Council asked that persons with complaints contact their ward councilman.

Richard Johnson, clerk, announced that he will be in his office in the City Hall from 11:30 a. m. to 5 p. m. and the early evenings so that those wishing to purchase drivers' licenses and business licenses may do so. He reminded that the deadline for obtaining the licenses is June 30.

Permission was granted Kenny Lance to break the curb and construct an entrance to his property.

A motion was passed to forward letters to the county health department and Carl Kirkland, county conservation officer, demanding immediate action on outside toilets within the city limits and dumping of trash in Middle Run and Cunningham creeks. Council again requested that residents in the vicinity also contact the officials.

A motion by Frank DeCapio, Third Ward councilman, to place a street light at the dead end of Virginia Ave. was defeated 3-2.

DeCapio requested the light because children use the area to go back and forth from the City Park. DeCapio and Councilman William Tuttle voted in favor of the motion. Councilmen Roy Cashdollar and Kenneth Williams and Clerk Johnson opposed the motion on the grounds that the light was not placed on the original budget.

The next regular meeting will be July 14.

Boyce Seeks Post Again At County Home

LISBON — Robert W. Boyce called on the county commissioners Monday to notify them he will return to duty at noon July 1 as acting superintendent of the County Home.

Acting superintendent since October 1965, Boyce was given a six-month suspension Jan. 1 after two beef cows and a calf were found dead in a field.

Boyce has been working in industry since the suspension. He told the commissioners he wants to hire W. E. (Bill) Hiscox of Lisbon as farm manager.

Hiscox was appointed acting superintendent during Boyce's suspension. In March, 45 employes and 84 patients petitioned the commissioners to make Hiscox and his wife, Mildred, permanent superintendent and matron because of their good work.

Boyce's wife, Gladys, has continued to serve as home matron during his suspension.

Their appeal from the commissioners' appointment of Joseph and Rosemond Mattevi of Lisbon RD 4 to the two posts in August 1967 is before the State Supreme Court.

The commissioners' position is complicated further by the Mattevis' continued interest in the jobs pending the court's ruling.

Inquest Set In Death Of Judy Garland

LONDON (AP) — Reports speculating that Judy Garland may have died from an overdose of sleeping pills are "pure rubbish," a Scotland Yard spokesman says. A coroner has ordered an inquest Wednesday into the death of the 47-year-old star.

Police said Monday there were a number of pills in the singer's home when Miss Garland was found dead in her bathroom Sunday. The pills were nowhere near the body but have been taken to Scotland Yard for examination, officers said.

Police doctors performed an autopsy Monday but did not disclose the results.

"As of this moment nobody in the Yard knows what she died from, nor will we until we know the results of the autopsy," a police spokesman said.

Doctors said following the autopsy they were taking some of Miss Garland's organs to a Scotland Yard laboratory for further examination. The organs were not identified.

She had cirrhosis of the liver and had been told by a London surgeon that she was "living on borrowed time."

The physician, Dr. Phillip Lebon, said he and another doctor had examined Miss Garland eight years ago and estimated then she had no more than five years to live.

Lebon said he had 'read the riot act" to Miss Garland and had warned her not to drink. She was known as a heavy drinker and for years had consumed many kinds of pills.

Driver Fined On Operating 'Unsafe' Auto

A 20-year-old driver who allegedly attempted to elude police was fined $15 and costs today in Municipal Court on a charge of operating an unsafe auto.

Judge Samuel M. Chertoff decreed the penalty for David R. Veon of 35 S. Market St., East Palestine, who was cited Monday night at 9:51 by Patrolman Dwight Garvey.

The officer alleged that Veon's 1960 model car had two bald tires, a leaking exhaust system and an inoperative emergency brake and turn signal.

Garvey said he spotted the auto ascending Avondale St., creating "a lot of noise." When he turned his cruiser to halt the auto, Veon attempted to elude the officer by turning onto Illinois Ave. and then onto Oak St., the officer reported. He said Veon halted his car on Oak St. and ran into a house, but came out when requested to do so.

Meanwhile, Linda K. Bender, 18, of 726 Broadway, Wellsville, was fined $15 and costs on a charge of speeding 70 miles an hour in a 60-mile zone on the East Liverpool - Wellsville Rd. She was cited by the Ohio Highway Patrol June 17 at 9:20 p.m.

New Meeting Set On Salem Area Sewer Proposal

LISBON — Columbiana County Commissioners have scheduled another meeting on the proposed Salem Northeast Sewer Project for 1:30 p.m. Monday at their office in the Courthouse.

Slated to attend are representatives of the city, state and county agencies involved.

The county has applied to the Housing and Urban Development office in Chicago for a $53,000 federal grant for detailed construction plans. However, HUD has tabled the request until the Commissioners obtain sewer line easements from approximately 41 property owners.

Commissioners invited those property owners whose easements are needed to a meeting June 9 and explained the situation. Only two owners signed then, and Walter Hunston of East Palestine, commissioners' agent, reports little success calling on the owners individually.

New Date Set In Action On Junked Autos

Municipal Judge Samuel M. Chertoff today granted a continuance until Friday in a case in which a Pleasant Heights man is accused of failure to remove junked autos from his property after receiving a written notice from Safety - Service Director Robert E. Vodrey.

The defendant is Bert E. Ehrhart of 1916 Lisbon St., who pleaded guilty today to the charge filed by Vodrey Monday. The director said he sent a written notice on June 9 to Ehrhart and his wife, Georgianna, advising them to remove alleged junked vehicles from their premises within 10 days. The affidavit alleged they had failed to comply. The action was taken under a section of the City Code that bans storage of junked cars on private property.

Ehrhart told Judge Chertoff this morning that two old vehicles that belonged to his sons-in-law were removed from the property Monday night. He said one auto body remains and it will be removed tonight or Wednesday. The director confirmed Ehrhart's statements.

The court then continued the hearing until Friday to allow Ehrhart to remove the last of the alleged junk. The judge warned Ehrhart that each day of continued violation may be construed as a separate offense, under the ordinance.

Youth Freed On Bond In Brother's Burning

John Baker Jr. 17, of Wellsville RD 1, near Highlandtown, was released from detention at Lisbon Monday afternoon when his father posted a $2,5000 bond for his arraignment Monday in Juvenile Court.

He is charged with being a delinquent child in that he set fire to his brother Dennis, 15, Friday afternoon at their home.

Authorities claim John threw gasoline on his brother after a quarrel, then threw a lighted match at him.

Dennis remains in "critical" condition at City Hospital.

highways leading to the proposed span be improved.

During hearings, it was pointed out that Steubenville could benefit the same way as East Liverpool, since there is talk of building another bridge across the river.

Presently, the bridge commission cannot construct bridges. It can only purchase facilities already built. The bill also would allow the body to construct bridges across waters within Ohio.

Proponents of the bill beat back an amendment which would have limited to 8 per cent the amount of interest the bridge commission could pay on bonds issued for construction of bridges.

As passed, there is no stated limit on the rate of interest.

The bridge commission could only build toll facilities, with the provision that after the bridge bonds are paid off the spans could be given to the Highway Department for maintenance as toll-free facilities.

Sealy Raps Rhodes On County Tax Plan

CLEVELAND, Ohio (AP) — Gov. James A. Rhodes' county income tax proposal is "at best a stop-gap and patchwork approach that will not achieve fairness for the taxpayer," says Albert H. Sealy.

Sealy, former state legislator from Dayton and announced Republican candidate for governor, made the statement at a news conference here Monday. He said the state needs a complete restructuring of its tax base, including a personal income tax.

Rich Allen of the Philadelphia Phillies struck out 161 times in 152 games last season. It was two less than the National League record.

Malak has bachelor and master's degrees from the University of Pittsburgh and has approximately 40 years experience in the area of industrial arts, vocational and adult education.

It was announced that a budget of $16,635 has been allocated for a "Head Start" program. Plans will begin immediately for the necessary appointments. The budget is adequate to care for four classes, it was pointed out.

Low bids of $2,869.86 from Ludovici's Pontiac Sales of Chester for a four-door sedan and $3,360 from the Highland Motor Co. of Weirton for a station wagon were accepted.

The classroom will be constructed of temporary partitions which can be removed and reused.

The board said advantanges for locating the classroom at the school instead of renting an additional classroom elsewhere as previously proposed include: The children will remain at the school and be a part of it; the cost is less; the material used can be removed and reused when other rooms become available; the need for an additional bus run is removed; the teacher will remain a part of the school staff and will be able to work with other first grade teachers.

Another Step Reported For Lines' Extension

Chester Council was advised Monday night of another important step twoard receiving federal aid for the proposed extension of water and sewer lines.

It was announced that the Brooke, Jefferson and Hancock County Planning Commission has informed Housing Urban Development of its approval of the project in the Lycria, Orion and Alba areas.

Such approval is necessary for federal aid.

Councckl advised residents of 6th St. Hill that the city cannot help finance seal-coating of the street now because it was not included in the original program.

Residents, who offered to pay a portion of the cost, were advised to contact the M.R.W. Asphalt Co. of Hanoverton and request seal-coating be done at the same time they seal-coat streets on the program, if they are willing to meet the entire cost.

Passed on second and final reading was an ordinance creating a two-hour parking zone on the east side of 2nd St. from Carolina Ave. to Church Alley and on the west side of 5th St. from Carolina Ave. to Church Alley.

A report was received from Jack Evans, county road commissioner, that Carolina Ave. would be resurfaced this summer. Council requested that the repairs not interfere with the firemen's carnival July 28-Aug. 2.

Council asked that persons with complaints contact their ward councilman.

Richard Johnson, clerk, announced that he will be in his office in the City Hall from 11:30 a. m. to 5 p. m. and the early evenings so that those wishing to purchase drivers' licenses and business licenses may do so. He reminded that the deadline for obtaining the licenses is June 30.

Permission was granted Kenny Lance to break the curb and construct an entrance to his property.

A motion was passed to forward letters to the county health department and Carl Kirkland, county conservation officer, demanding immediate action on outside toilets within the city limits and dumping of trash in Middle Run and Cunningham creeks. Council again requested that residents in the vicinity also contact the officials.

A motion by Frank DeCapio, Third Ward councilman, to place a street light at the dead end of Virginia Ave. was defeated 3-2.

DeCapio requested the light because children use the area to go back and forth from the City Park. DeCapio and Councilman William Tuttle voted in favor of the motion. Councilmen Roy Cashdollar and Kenneth Williams and Clerk Johnson opposed the motion on the grounds that the light was not placed on the original budget.

The next regular meeting will be July 14.

Boyce Seeks Post Again At County Home

LISBON — Robert W. Boyce called on the county commissioners Monday to notify them he will return to duty at noon July 1 as acting superintendent of the County Home.

Acting superintendent since October 1965, Boyce was given a six-month suspension Jan. 1 after two beef cows and a calf were found dead in a field.

Boyce has been working in industry since the suspension. He told the commissioners he wants to hire W. E. (Bill) Hiscox of Lisbon as farm manager.

Hiscox was appointed acting superintendent during Boyce's suspension. In March, 45 employes and 84 patients petitioned the commissioners to make Hiscox and his wife, Mildred, permanent superintendent and matron because of their good work.

Boyce's wife, Gladys, has continued to serve as home matron during his suspension.

Their appeal from the commissioners' appointment of Joseph and Rosemond Mattevi of Lisbon RD 4 to the two posts in August 1967 is before the State Supreme Court.

The commissioners' position is complicated further by the Mattevis' continued interest in the jobs pending the court's ruling.

HINTS FROM HELOISE

Give Aways Are Fine Gifts

DEAR HELOISE: I've just had what I think is a terrific idea:

You know how so many grocery stores give dishes away with certain amounts purchased? Or with designated amounts bought, you can buy pieces to make up place settings at a great discount?

Heloise

Well, I was thinking about how many people live alone and how nice it would be to give them one complete place setting of dishes. Think what a lift it would be, especially for the elderly.

So often we find it very difficult to decide on gifts for them.

You don't have to wait for a special occasion, just make it a "thinking-of-you gift." That's the best kind anyway!

MRS. J. H.

-:-

I think that's just about the greatest idea in many a moon. Wish I had thought of it myself. Thanks a bunch!

HELOISE.

Letter Of Thought

DEAR HELOISE: In order to stay afloat financially, we housewives will have to use that old saying, "Eat it up; Wear it out; Make it do; or Do without."

MRS. GLEN THORNTON.

DEAR HELOISE: I had my husband cut down an old table to about twenty inches high.

Then I repainted it and covered the top with pictures from magazines. Mostly pictures of trains, tractors, planes, boats, and toys of all kinds. All pictures that would interest a two-year-old boy.

I covered the table with shellac and, believe you me, it's just adorable.

Our grandson is really enjoying the table — not only for his play area, but is fascinated with the pictures.

I would not recommend using catalog pictures because some of the colors in them tend to run when the shellac is put on. The magazine pictures don't.

MRS. M. MARSHALL.

DEAR HELOISE: My husband doesn't drink coffee in the morning. Since I don't like to make a whole pot just for myself, this is what I do:

I take a small funnel, one which had a small enough bottom to place in my coffee mug. Then I put a facial tissue inside the funnel to act as a filter and put in enough regular drip grind coffee to make one cup.

I pour boiling water over the coffee and let it seep through the tissue until I have enough for the cup.

Delicious!

But, unless you want perfumed coffee, don,t use scented tissue.

A FAN.

-:-

What an ol' smartie! How about funneling me up a cup? Sounds great.

HELOISE.

DEAR HELOISE: When an over-blouse is so sheer that the skirt underneath shows through, I take a pinking shears and cut off the top of an old slip to wear under the blouse.

The bottom part of the slip is not wasted because I use it to line the deep lace hem of a newer slip.

Lace hems aren't shadow-proof, so this problem is also solved.

Air Unit Speeds Canned Goods In C-Ration Plight

Thanks to a "family affair," an Army Division has been living high on the hog with canned meat and canned soups in Vietnam instead of the usual C-rations.

A letter from Sfc. Harold F. Wilson in Viet to his sister, Maj. Eleanor M. Wilson in Japan, was responsible.

The Wilsons are children of Harold M. Wilson of the Y. & O. Rd., Wellsville, and the late Anvenda F. Wilson.

When Maj. Wilson received her brother's appeal, she forwarded two boxes of canned meats, fruits and vegetables.

When sergeants of the Air Force dispensary, where she is assigned, heard of the situation, they, too, decided to send boxes of canned food to the Army Division as a token of friendship from the Air Force.

Sfc. Wilson arrived in Vietnam in February, where he is assigned as platoon sergeant. His wife and two sons reside at Ft. Polk, La., his previous base.

His sister arrived in Japan in January and, in addition to being chief nurse of the 347 USAF Dispensary, is nurse consultant for 5th Air Force Region on School Health programs and nurse staffing.

Air Unit Speeds Canned Goods In C-Ration Plight

Thanks to a "family affair," an Army Division has been living high on the hog with canned meat and canned soups in Vietnam instead of the usual C-rations.

A letter from Sfc. Harold F. Wilson in Viet to his sister, Maj. Eleanor M. Wilson in Japan, was responsible.

The Wilsons are children of Harold M. Wilson of the Y. & O. Rd., Wellsville, and the late Anvenda F. Wilson.

When Maj. Wilson received her brother's appeal, she forwarded two boxes of canned meats, fruits and vegetables.

When sergeants of the Air Force dispensary, where she is assigned, heard of the situation, they, too, decided to send boxes of canned food to the Army Division as a token of friendship from the Air Force.

Sfc. Wilson arrived in Vietnam in February, where he is assigned as platoon sergeant. His wife and two sons reside at Ft. Polk, La., his previous base.

His sister arrived in Japan in January and, in addition to being chief nurse of the 347 USAF Dispensary, is nurse consultant for 5th Air Force Region on School Health programs and nurse staffing.

Area Man Bound Over In Robbery, Beating

EAST PALESTINE — Clifford Richards, 23, of Lisbon RD 4, charged with taking $60 from a Lisbon area man June 5, was bound over to the Columbiana County Grand Jury Monday by County Judge Barry Dickson.

Richards and a companion allegedly beat and robbed James D. Rader of Lisbon RD 1 at a roadside park near West Point. The other suspect is still at large.

Richards' bond of $2,500 was continued.

Two-thousand feet below the surface at the Internatonal Nickel's Creighton mine in the Sudbury District of Ontario, a fully equipped garage has been built to service diesel - powered mining equipment. A grease job, oil change, tires and parts replacement can be performed.

Although natural alloys containing nickel were worked into tools, weapons and other implements more than 5,000 years ago, it was not until 1751 that the metal was identified and isolated as a separate element.

The DOCTOR Says

Use Warm Water Enema For Constipation

Q — I have a severe case of nerves and constipation. Are they related? An enema frequently fails to help me. What do you recommend?

Dr Brandstadt

A — Nervous tension is often associated with diarrhea and more rarely with constipation. Many persons take laxatives, have a loose stool, then miss a day and erroneously believe they are constipated. Constipation has nothing to do with skipping a day but is properly defined as passing a stool that is hard and dry and of such thickness that it is difficult to pass.

If you have gone 48 hours without a bowel movement, take an eight-ounce enema of plain warm water and hold it for at least five minutes. This rarely fails. If your stools are usually hard and dry, try a litle Metamucil or Syllamalt. Both are psyllium preparations and soften your stool without irritating your digestive tract.

—:—

Q — What is autointoxication?

A — This old term is now rarely used because it is based on the erroneous idea that, in the process of digestion, poisonous substances are produced and absorbed into your blood.

Q — Why do you recommend avoiding Epsom salts for constipation?

A — They irritate the bowel and are likely to cause overemptying.

Q — Will taking Epsom salts clear the blood or does it thin it?

A — A large dose of Epsom salts may draw fluids from the blood into the digestive tract. This is a type of clearing of the blood that would tend to thicken it rather than thin it. In any case, it would not improve it.

Q — Would constipation cause blood in the bowel movement? What else could cause it?

A — A stool that is thick and hard can cause bleeding from the bowel. Other causes include piles, fissures, dysentery, cancer and a bleeding peptic ulcer.

—:—

Q — What foods supply roughage? Would lettuce and bran be included?

A — All foods that contain cellulose (indigestible bulk) supply roughage. Lettuce and other vegetables are included, along with fruit. Bran, unless very finely divided (powdered), is a rather severe form of roughage and is not recommended.

Please send your questions and comments to Wayne G. Brandstadt, M.D., in care of The Review. While Dr. Brandstadt cannot answer individual letters, he will answer letters of general interest in future columns.

Trucker Foils Hijack Attempt Of Liquor Rig

CLEVELAND, Ohio (AP) — A trucker foiled an attempted hijacking and a low bridge wrecked another Monday, saving Ohio about $100,000 in liquor.

"I had about 1,000 cases of that good state liquor aboard," said Joseph McCann, 45, driver of one rig. He said he was slowly driving up a ramp on Cleveland's near West Side when two gunmen "jumped up on my tractor—one on each side—and the one waves a gun at me and says, 'pull over.' I went into action."

McCann said he locked the passenger door and at the same time kicked open the driver's door, knocking one of the gunmen to the street. He said he grabbed the keys and ran. He jumped aboard a passing tractor-trailer rig and was driven to a telephone where he called police.

About an hour later on the East Side of Cleveland, Joseph Shoff, also 45, who lives near McCann, was backing his tractor loaded with 750 cases of whisky in an alley near a state store when two gunmen jumped on either side of his tractor.

Police said Shoff told them he was forced to lie on the floor of the tractor as the two men drove toward the freeway. Enroute, they tried to get the truck through an 11-foot-high parking lot access bridge. The trailer is 14 feet high.

After two noisy, unsuccessful attempts, the gunmen fled, Shoff said.

Police said that even though descriptions of clothing and age vary, they believe the same gunmen tried both heists.

Taft Eyes Amendments

Plan To Boost Hospital, Pen Workers Pay 'Alive'

COLUMBUS, Ohio (AP) — A proposal to up pay raises for state hospital and prison workers is still alive—but barely

Sen. William W. Taft, R-26 Cleveland, said Monday he will introduce amendments to give workers for the Department of Mental Hygiene and Correction $9 million more over the next two years than they would receive under an administration pay raise bill.

Under pay raises included in the $23.5 million administration pay raise bill, state workers would receive $12 million over the two-year period which begins July 1.

Taft said Senate Majority Leader Theodore M. Gray, R-3 Piqua, and Senate Finance Chairman Robert R. Shaw, R-16 Columbus, are "resisting any additional pay raises on the grounds there is no money."

Gray and Republican members of the Finance Committee caucused Monday on state finances and proposed appropriations for the next two years.

In recent months, the militant State Employes Union has been pushing hard for substantial increases for state workers especially for prison guards and attendants for the criminally insane.

On Monday the Ohio Civil Service Employes Association, which has gone along with the administration bill, jumped on the band wagon, hoping to get increases to help its membership.

The association sent telegrams to all members of the Finance Committee contending that pay increases in the administration bill "are, except at the very lowest levels, inadequate, unrealistic and discriminatory."

The telegram held that although the association agrees the emphasis should be on the lowest paid employes, this should not rule out needed increases for all employes

One committee member, Sen. Oliver Ocasek, D-27 Northfield, said of the telegram:

"I commend them for speaking out, but it's a little bit late. 'Inadequate, unrealistic and discriminatory' are words I have not heard from them in the past three months that we have been considering the bill. I had a feeling they generally went along with it."

Ocasek, who has said the bill does not provide adequate pay increases, added that he is "not overly optimistic" it will be changed.

"The die is cast and the thing is ready to roll," he said.

The amendments which Taft will put before the committee were originally proposed last week by Martin A. Janis, mental hygiene and correction director. Taft is sending them to the Legislative Service Commission for redrafting.

Janis, who declined to testify on his amendments, said the hourly wages he has recommended represent the median wages paid in neighboring states for similar classifications for state workers.

'Squares' Move To Avert Campus Takeover In Fall

LAKE FOREST, Ill. (AP) — "We're providing an umbrella under which people opposed to tyranny can collect," says a leader of an antiradical group of about 100 students meeting here to develop measures aimed at preventing campus takeovers next fall.

"We advocate the use of whatever force is necessary to combat campus takeovers," said Lee Edwards, assistant chairman of the group of students who call themselves "squares."

The "squares," whose organization's officially called the National Student Conference in Revolution, are holding a week-long workship at Lake Forest College to perfect counter tactics to be used against disruptive college demonstrators.

One of the tactics, to be practiced later this week, is a locked-arm wall of coeds to block demonstrators from entering and seizing campus buildings.

"We have worked hard to obtain our education, and we will work just as hard to prevent our college opportunity from being taken away from us," one convention participant said Monday.

In addition to the workships, the students are attending lectures, panel discussion and debates dealing with contemporary revolution.

Frazier Challenges Ellis After Victory Over Quarry

WORLD HEAVYWEIGHT CHAMP Joe Frazier (right) throws an easy one as challenger Jerry Quarry protects a cut under his eye with his right during their title bout Monday at Madison Square Garden. Frazer scored a TKO at the end of the seventh round. (UPI Telephoto)

Undefeated Champ Gets TKO In 7th

By MURRAY ROSE
Associated Press Sports Writer

NEW YORK (AP) — Minutes after Joe Frazier had destroyed game, half-blinded Jerry Quarry in seven rounds of an impressive title defense, the unbeaten Philadelphian and WBA champion Jimmy Ellis challenged each other in the Madison Square Garden ring.

It looked like a fight natural in the making for the disputed crown in September between Frazier, the six-state king of the heavyweights, and Ellis, the World Boxing Association's champion from Louisville, Ky.

But Ellis may take on former champion Sonny Liston first in Los Angeles, Houston, or Las Vegas in late July or early June.

Frazier and Ellis had their verbal battle shortly after the ring physician, Dr. Harry Kleiman, had come to Quarry's rescue and ordered the one-sided fight stopped after the seventh round. In New York it was listed as a seventh-round technical knockout.

Quarry, who had come tearing out in the first round like a hungry tiger after a lamb, was cut and puffed under the right eye in the third round. Unable to see from the eye, he absorbed a fearsome beating to the head and body from then on although he never was dropped.

"He is a helluva fighter," said Quarry, stopped for the first time in his career (31-3-4). "I couldn't see out of my right eye. I didn't want the fight to be stopped. I wanted to go out punching like a man."

"He was tough but I knew I would get him," said Frazier. "He came to fight."

Frazier's relentless, buz-saw attack impressed most everyone in the crowd of 16,570 (gross gate $502,518) but it didn't scare Ellis.

Called into the ring for a television interview, he soon was engaged in a shouting battle with Frazier, who still had plenty of fire left.

'He kept hollering I'm next and pointed his finger at me," said Ellis. "I told him I would beat him and shut his mouth. I want that man."

Frazier said he told Ellis "You're no champ. You won't fight anybody. A champ's got to fight everybody."

Yank Durham, Frazier's manager and trainer, told Ellis, "We're going to take a tune-up with you and then fight Cassius Clay if the government ever turns him loose. But right now Joe's going to rest. He's had four title defenses in a year."

"We'll sign the papers right now," said Angelo Dundee Ellis' manager, "but they're ducking us. That Yank Durham just likes to talk a lot of baloney. We want Frazier. But we're not going to wait forever."

Although Ellis has more territory to reign over, the aggressive, Frazier is the hottest guy in boxing right now.

The 25-year-old muscleman's devastating destruction of the 24-year-old blond from Bellflower, Calif., was his 24th in as many pro fights and his 22nd knockout. His knockout average of .875 is second only among all heavyweight champions to retired, undefeated Rocky Marciano's .878.

Frazier wears down his opponents like those big iron balls knock down buildings. He is as persistent as a dentist's drill. He keeps coming and punching as if he was afraid he'd be fined for loitering.

Quarry knew he'd come and predicted that he'd knock out Joe in five. The ruggedly handsome blond tried to do it in one. He surprised the fans, but not Frazier, by rushing to the attack in a sensational and savage first round.

They stood toe-to-toe and hammered each other to the body and head with thudding left hooks. Quarry's right chops to the head provided the difference in the round—the only one Jerry won.

In the second, Frazier took the lead and held it the rest of the way. He kept driving Quarry to the ropes. Late in the second round jolting Joe hurt his man with a left hook to the jaw.

Late in the third he chopped open the inch-wide gash that required eight stitches. At the end of the fourth Dr. Kleiman examined Quarry. And in the sixth Jerry's knees buckled from the smashing blows.

The finish was inevitable. Quarry was fighting with his right hand high to protect his wound.

TIGER SHORTSTOP Tom Tresh (left) scores from third base on a wild pitch by Yankee pitcher Stan Bahnsen (45) during the third inning of Monday's game at Detroit. Bahnsen, after rushing in to cover the plate, fell to his knees to stop a low throw from catcher Frank Fernandee. (UPI Telephoto)

Mota's Hitting Leads LA To 7th Straight Win

By DICK COUCH
Associated Press Sports Writer

Maury Wills is the quarterback who makes the Los Angeles Dodgers go-go-go . . . but Manny Mota is is the No. 1 ground-gainer in their rebuilt attack.

Mota, acquired with Wills from Montreal two weeks ago, drove in three runs Monday night with a single and his first 1969 homer, leading the Dodgers past Atlanta 5-3 for their seventh straight victory.

Wills contributed a single and triple as the Dodgers pushed their National League West Division lead to 1½ games over the second place Braves. With the two veterans batting 1-2 in the line-up, they have won nine of 13 starts in their charge to first place.

Elsewhere, the Chicago Cubs struck for two runs in the ninth inning and edged Pittsburgh 5-4 for a five-game East Division lead over idle New York; Cincinnati blanked staggering San Diego 5-0 on Jim Merritt's two-hitter and Houston ran its winning streak to seven with a 9-3 victory over San Francisco. St. Louis and Montreal were rained out in the only other game on the NL schedule.

In American League action, Baltimore trimmed Washington 5-3; Detroit shaded the New York Yankees 6-5 and California took Minnesota 5-2. Rain knocked out the Cleveland-Boston and Chicago-Seattle games. Kansas City and Oakland were not scheduled.

"The first time Maury Wills walked into our dressing room there was a different air in the clubhouse," pitcher Don Sutton said after beating the Braves for an 11-5 season record with relief help from Jim Brewer. "We knew we had somebody to take charge . . . to bust his tail for us.

'He's the quarterback, and I'm glad to see him come back."

Wills, the 36-year-old shortstop who stole 104 bases for the Dodgers seven years ago and led them to three pennants before being dealt to Pittsburgh in 1967, has batted .380 since rejoining his old mates on June 11. He has hit safely in each of the last 10 games.

Mota, a 31-year-old outfielder who accompanied Wills from Pittsburgh to Montreal in the expansion draft, has been even hotter at the plate since becoming a Dodger. He has hit at a .425 clip, boosting his season average to .353, and has failed to connect in only one of 12 starts with Los Angeles.

The Braves tied Monday night's game 2-2 in the sixth on Rico Carty's homer after Mota sent the Dogers ahead with a two-runblast off George Stone in the third.

Stone balked home the go-ahead run in the seventh and the Dodgers added two more in the ninth on Wills' triple, Mota's single, a sacrifice bunt and catcher Bob Tillman's two-base throwing error.

Trailing 4-3 in the ninth, the Cubs swept past Pittsburgh on a pinch single by Bill Heath, a bunt single by Don Kessinger, Billy Williams' run-scoring single and Ron Santo's sacrifice fly.

Run-producing singles by Fred Patek and Bill Mazeroski in the sixth had given the Pirates the lead.

Merritt retired the first 16 hitters he faced, gave up a sixth inning single by Clarence Gaston and then nailed 10 more in order before John Sipin singled with two out in the ninth as the Reds handed the Padres their ninth consecutive setback—and third straight shutout.

Tony Perez' three-run homer off Gary Ros, 1-7, helped Merritt breeze to his seventh victory in 10 decisions.

Denis Menke delivered three runs with a double and single and pinch hitter Gary Geiger drilled a bases-loaded triple for three more as the Astros swamped the Giants behind Don Wilson's six-hit pitching.

Dick Dietz sent San Francisco ahead 2-0 with a second-inning homer, but the Astros shot in front to stay in the third when Menke doubled in two runs and scored from second on Marty Martinez' infield hit.

Price Was Right Choice By Smith In Detroit Win

By MURRAY CHASS
Associated Press Sports Writer

It might have looked like a big gamble, but Mayo Smith's parlay of Cash and Price paid off for the Detroit Tigers.

That's Norm Cash and Jim Price, and they were heavily responsible for the Tigers' 6-5 victory over the New York Yankees. Most responsible, however, might have been Smith himself.

It was the manager's maneuver that actually brought the Tigers the victory on a night when rain interfered with much of the schedule.

In the American League, rain washed out Cleveland at Boston and Chicago at Seattle, leaving Baltimore to trim Washington 5-3 and California to top Minnesota 5-2.

Of the Tigers' first four runs, Cash figured in all of them. In the first inning, his single sent Dick McAuliffe to third from where he scored on Willie Horton's single.

In the third, Cash drove a fly to deep center, enabling Tom Tresh to go to third from where he came home on San Bahnsen's wild pitch.

In the fifth, Cash singled home Al Kaline, and in the seventh, his single moved Kaline to third from where he scored on another Horton single.

Still, the Tigers trailed 5-4 going into the ninth. Left-hander Steve Hamilton got the first out, but Kaline raced all the way to third when third baseman Bob Cox threw wild on his grounder.

It was Cash's turn to bat, but Manager Smith wasn't about to send a left-handed batter against Hamilton.

"Hamilton has been making his living for years off left-handed hitters," Smith explained afterward. He already had summoned catcher Price from the bullpen, and now the right-hander took Cash's place at bat.

In came Hamilton's first pitch, and back out it went—all the way into the lower left field stands for a game-winning home run.

The Yankees had led all the way until then, having taken a 3-0 lead in the top of the first inning on Joe Pepitone's run-scoring single and a two-run, bases-loaded single by Bill Robinson.

Baltimore also used the home run to beat Washington and Darold Knowles. Frank Robinson broke a 2-2 tie with his 15th homer in the eighth inning, and Dave Johnson hit a two-run shot later in the inning.

Knowles, who hadn't allowed an earned run since returning from military service last month, gave up all five Oriole runs.

Sandy Alomar started the Angels on their way to a 14-hit barrage against Minnesota, socking an inside-the-park home run leading off the first inning. Alomar also singled home a run in the second.

Dray Chalks Up No-Hitter In LL

Craig Dray of Golden Star joined the honor roll of no-hit pitchers in the East Liverpool Little League firing a no-hitter at Veteran Plate Glass Monday as Golden Star won 6-0.

Dray only faced 23 batters in six innings walking three while striking out six. At one stretch he retired 10 batters in a row.

Gary Marker had two singles and drove in two of Golden Star's runs while Mike Payne doubled in two others. Mike O'Hanlon was the losing pitcher.

A two - hit pitching performance was turned in by Rich Pecora who hurled Chester Legion to an 11-0 victory over Burbick's.

Mark Glass clubbed a home run, double and single to pace Chester while Bud Gregory had a double. Badgley was the losing pitcher and Wycoff doubled for Burbick's.

The Medics squeezed past Parsons Coal, 5-4 scoring all of their runs in the third inning. The Medics put together five singles, a double and two walks for the big inning.

Greg Golding was the winning pitcher and Thompson was charged with the loss. Samples and Wright had two hits each for Parsons.

Frazier Challenges Ellis After Victory Over Quarry

WORLD HEAVYWEIGHT CHAMP Joe Frazier (right) throws an easy one as challenger Jerry Quarry protects a cut under his eye with his right during their title bout Monday at Madison Square Garden. Frazer scored a TKO at the end of the seventh round. (UPI Telephoto)

Undefeated Champ Gets TKO In 7th

By MURRAY ROSE
Associated Press Sports Writer

NEW YORK (AP) — Minutes after Joe Frazier had destroyed game, half-blinded Jerry Quarry in seven rounds of an impressive title defense, the unbeaten Philadelphian and WBA champion Jimmy Ellis challenged each other in the Madison Square Garden ring.

It looked like a fight natural in the making for the disputed crown in September between Frazier, the six-state king of the heavyweights, and Ellis, the World Boxing Association's champion from Louisville, Ky.

But Ellis may take on former champion Sonny Liston first in Los Angeles, Houston, or Las Vegas in late July or early June.

Frazier and Ellis had their verbal battle shortly after the ring physician, Dr. Harry Kleiman, had come to Quarry's rescue and ordered the one-sided fight stopped after the seventh round. In New York it was listed as a seventh-round technical knockout.

Quarry, who had come tearing out in the first round like a hungry tiger after a lamb, was cut and puffed under the right eye in the third round. Unable to see from the eye, he absorbed a fearsome beating to the head and body from then on although he never was dropped.

"He is a helluva fighter," said Quarry, stopped for the first time in his career (31-3-4). "I couldn't see out of my right eye. I didn't want the fight to be stopped. I wanted to go out punching like a man."

"He was tough but I knew I would get him," said Frazier. "He came to fight."

Frazier's relentless, buz-saw attack impressed most everyone in the crowd of 16,570 (gross gate $502,518) but it didn't scare Ellis.

Called into the ring for a television interview, he soon was engaged in a shouting battle with Frazier, who still had plenty of fire left.

'He kept hollering I'm next and pointed his finger at me," said Ellis. "I told him I would beat him and shut his mouth. I want that man."

Frazier said he told Ellis "You're no champ. You won't fight anybody. A champ's got to fight everybody."

Yank Durham, Frazier's manager and trainer, told Ellis, "We're going to take a tune-up with you and then fight Cassius Clay if the government ever turns him loose. But right now Joe's going to rest. He's had four title defenses in a year."

"We'll sign the papers right now," said Angelo Dundee Ellis' manager, "but they're ducking us. That Yank Durham just likes to talk a lot of baloney. We want Frazier. But we're not going to wait forever."

Although Ellis has more territory to reign over, the aggressive, Frazier is the hottest guy in boxing right now.

The 25-year-old muscleman's devastating destruction of the 24-year-old blond from Bellflower, Calif., was his 24th in as many pro fights and his 22nd knockout. His knockout average of .875 is second only among all heavyweight champions to retired, undefeated Rocky Marciano's .878.

Frazier wears down his opponents like those big iron balls knock down buildings. He is as persistent as a dentist's drill. He keeps coming and punching as if he was afraid he'd be fined for loitering.

Quarry knew he'd come and predicted that he'd knock out Joe in five. The ruggedly handsome blond tried to do it in one. He surprised the fans, but not Frazier, by rushing to the attack in a sensational and savage first round.

They stood toe-to-toe and hammered each other to the body and head with thudding left hooks. Quarry's right chops to the head provided the difference in the round—the only one Jerry won.

In the second, Frazier took the lead and held it the rest of the way. He kept driving Quarry to the ropes. Late in the second round jolting Joe hurt his man with a left hook to the jaw.

Late in the third he chopped open the inch-wide gash that required eight stitches. At the end of the fourth Dr. Kleiman examined Quarry. And in the sixth Jerry's knees buckled from the smashing blows.

The finish was inevitable. Quarry was fighting with his right hand high to protect his wound.

TIGER SHORTSTOP Tom Tresh (left) scores from third base on a wild pitch by Yankee pitcher Stan Bahnsen (45) during the third inning of Monday's game at Detroit. Bahnsen, after rushing in to cover the plate, fell to his knees to stop a low throw from catcher Frank Fernandee. (UPI Telephoto)

Midland Gains 3-2 Nod Over Freedom Legion

The Midland Legion won a 3-2 decision over the Freedom Legion at Midland in a rain shortened game Monday.

The game was called in the top of the sixth and a fifteen minute wait and the diamond was not suiitable for further play with the heavy downpour continuing.

Midland scored first in their half of the first inning on a pair of base on balls, an error and a single. Scotty Newtz drew a walk to open the frame. Larry Lockhart was safe on an error by second baseman Denny Evans. Larry Anderson struckout. Tension Builds As Net Stars Are Rained Out

WIMBLEDON, England (AP) — Some of the world's top tennis stars faced jitters day at Wimbledon today after waiting 24 hours to get started.

The players, keyed up for the opening of the world's premier tournament, sat around for hours in their dressing rooms Monday waiting for the rain to stop.

It didn't—and the whole day's program was transferred to today.

The fans waited to see how the tension would affect some of the big duels in the first round.

Arthur Ashe, the reigning U.S. Open champion from Richmond, Va., faced a tough encounter with Marty Riessen of Evanston, Ill.

Ashe, who is seeded No. 5, has yet to prove that he has got over a bad spell of form which lasted throughout his tour of the European circuit this spring. He has been trying to shake off a nagging elbow injury.

Riessen, a former U.S. Davis Cup player, now tours with the World Championship Tennis group controlled by promoter Bob Briner.

Two of the most tempestuous players in the game—Cliff Richey of San Angelo, Tex., and Bob Hewitt, South Africa's Australian-born Davis Cup star, were due to clash on the center court.

It was danger day for Pancho Gonzales, 41-year-old American professional. He faced big-serving Charlie Pasarell, U.S. Davis cupper from Puerto Rico, in another center-court match.

John Newcombe, the Australian who won the Wimbledon title in 1967, had to play Yugoslav left-hander Nicky Pilic.

That was another battle in which anything might happen. Both are members of Briner's touring troupe.

Rod Laver of Australia, the defending champion, was scheduled to lead off the tournament against Nicola Pietrangeli, 35-year-old Italian who has been an idol of Wimbledon crowds since 1954. Laver, rated by the bookies an odds-on favorite for the title, was not expected to run into much difficulty in this match.

The lowest number of putts was won by Fetterolf with 24.

Rozelle Eyes Meeting With Joe Namath

KANSAS CITY (AP) — Pro football Commissioner Pete Rozelle, accused in some quarters of hounding Broadway Joe Namath out of the game, says he has hopes the New York Jets quarterback will return to the fold.

Rozelle commented Monday he would like to meet with Namath and talk things over soon. No meeting is arranged, and they have not had any contact.

But there are indications, said Rozelle, "we might be able to get together within a week. At least, I hope so."

The commissioner ordered Namath to sell his interest in a popular New York City restaurant-bar called Bachelors III, or face suspension from pro football.

Namath retired rather than divest himself of the business, but has remarked since he wants to continue to play football.

"I've said all along," Rozelle said, "that I'm hopeful Joe will be playing football this fall. I was sorry that Joe retired from pro football. I wouldn't want to say anything else until I talk to Joe."

Browns' Morin Gets Test For Back Ailment

CLEVELAND, Ohio (AP) — Milt Morin, three-year veteran tight end of the Cleveland Browns, is undergoing tests in Mount Sinai Hospital in Cleveland for a back ailment. He is in traction.

"It's probably the result of something I got during the season," Morin said. Dr. Mal Brahms, the National Football League team's orthopedic surgeon, said it would be another day or two before he would know exactly what is wrong with Morin.

The 26-year-old, under instructions from head Browns coach Blanton Collier not to discuss the injury, said he did not recall any specific incident last season which could have injured his back.

Sources said Morin suffered back pains for almost a month before being admitted to the hospital last week.

Jurors Return Verdict In Favor Of Power Firm

LISBON — A Common Pleas Court jury returned a verdict Monday afternoon for the Ohio Power Co., defendant in a $400,000 personal injury suit filed by a Wellsville man.

Fred L. Mobley of 1797 Clark Ave sought damages for injuries received in 1965 while he was working at the 2nd St. pumping station for the city of Wellsville.

He received electrical burns on the legs and back when he came in contact with high tension wires. His left leg had to be amputated below the knee.

His counsel, George Aronson and Bernard Fineman of East Liverpool, claimed the utility was negligent in permitting Mobley to work in proximity to the energized wires.

Defense Counsel William D. Campbell and Ted S. Cooper of Steubenville, in closing argument, said the evidence showed Ohio Power fulfilled its contract with the city and delivered the power to the top of the tower. The city was responsible for it after that, they declared.

All except one of the 12 jurors signed the verdict. The trial began last Tuesday before Judge Joel H. Sharp.

And The Brute Comes Out

Marriage Unmasks Men

By HAL BOYLE

NEW YORK (AP) — Nothing unmasks a man like marriage.

Then the gilt wears off, and the brute beneath Prince Charming discloses the truth of what he really is—a beast in a white shirt.

As many a woman can testify.

Before the ceremony he used to read her love poems as he ran his fingers through her tangled curls. Now he looks up from his morning paper only to gripe about the burnt toast and complain about her curlers.

When she was a bride, he swept her off her feet and lightly carried her bodily across the threshold of their tiny new apartment. But let her try to sit in his lap today and he groans as if she had become an elephant.

Once he promised that if she would only be his, he'd climb the highest mountain and swim the deepest sea for her. Is that still true? Hardly. If she even asks him to carry out the garbage, he wants to make a federal case out of it.

When he was courting her, he willingly borrowed at the bank in order to shower her with pretty presents. Today if she wants to buy a new pair of shoes, he coldly asks her, "Do you think money grows on trees?"

There was a time when he would leap to his feet and rush across the room to light her cigarette. That was before she told the minister, "I do." Now, she feels uneasily, he probably wouldn't get off the sofa to help her if she suddenly burst into flames.

In the old days he was glad to take her dancing until dawn. Now, on the once-a-month he takes her out for an evening, she is lucky if he fox trots her once around a tiny night club dance floor before sinking back exhausted in his chair.

Before, he was interested in her views about everything. Now if she voices an opinion about anything, he says cuttingly, "Look who's talking."

"No wife of mine is ever going to have to work," he told her when he was her suitor. But now that he has been wed to her for a while, he spends half of every Sunday going through the want ad pages looking for a job she can handle.

In her idle hours she wonders what she could have done wrong to change her gallant suitor into the selfish monster he has become.

She did only one thing wrong—she married the bum. Then, like any other husband, he simply reverted to type.

Crash Hurts Area Driver

An 18-year-old area youth escaped serious injury when his truck was demolished in an accident on Substation Rd. just east of Route 267 Monday.

The Ohio Highway Patrol at Lisbon said Louis Brown of Calcutta lost control of a 1968 pickup truck which went off the road into a ditch, struck a large stone and flipped over on its side at 8:05 p.m.

Brown was examined at City Hospital for a possible fracture of the back and released.

A Wellsville woman was injured in a one-car accident on Route 39 just 100 feet east of Route 164 near Salineville at 1:15 a. m. today.

Mary L. O'Neill, 20, of 565½ Main St., Wellsville, lost control of her 1962 sedan on a curve and it struck an embankment.

An Ellwood City, Pa., man was cited following a near collision on the Leetonia Rd. north of Lisbon Monday night.

Carl R. Andric, 19, of 322 N. Market St., Lisbon, was southbound on the Leetonia Rd. about a mile north of Route 164 when he crested a hill and saw a 1969 coach crossways in the road.

Andric's car slid off the road when he applied his brakes to avoid a collision with the coach operated by James E. Chambers, 23, of Ellwood City who was backing out of a private drive.

Chambers was cited for failure to yield the right of way. The accident was timed at 5:45 p.m.

Tension Builds As Net Stars Are Rained Out

WIMBLEDON, England (AP) — Some of the world's top tennis stars faced jitters day at Wimbledon today after waiting 24 hours to get started.

The players, keyed up for the opening of the world's premier tournament, sat around for hours in their dressing rooms Monday waiting for the rain to stop.

It didn't—and the whole day's program was transferred to today.

The fans waited to see how the tension would affect some of the big duels in the first round.

Arthur Ashe, the reigning U.S. Open champion from Richmond, Va., faced a tough encounter with Marty Riessen of Evanston, Ill.

Ashe, who is seeded No. 5, has yet to prove that he has got over a bad spell of form which lasted throughout his tour of the European circuit this spring. He has been trying to shake off a nagging elbow injury.

Riessen, a former U.S. Davis Cup player, now tours with the World Championship Tennis group controlled by promoter Bob Briner.

Two of the most tempestuous players in the game—Cliff Richey of San Angelo, Tex., and Bob Hewitt, South Africa's Australian-born Davis Cup star, were due to clash on the center court.

It was danger day for Pancho Gonzales, 41-year-old American professional. He faced big-serving Charlie Pasarell, U.S. Davis cupper from Puerto Rico, in another center-court match.

John Newcombe, the Australian who won the Wimbledon title in 1967, had to play Yugoslav left-hander Nicky Pilic.

That was another battle in which anything might happen. Both are members of Briner's touring troupe.

Rod Laver of Australia, the defending champion, was scheduled to lead off the tournament against Nicola Pietrangeli, 35-year-old Italian who has been an idol of Wimbledon crowds since 1954. Laver, rated by the bookies an odds-on favorite for the title, was not expected to run into much difficulty in this match.

The lowest number of putts was won by Fetterolf with 24.

Rozelle Eyes Meeting With Joe Namath

KANSAS CITY (AP) — Pro football Commissioner Pete Rozelle, accused in some quarters of hounding Broadway Joe Namath out of the game, says he has hopes the New York Jets quarterback will return to the fold.

Rozelle commented Monday he would like to meet with Namath and talk things over soon. No meeting is arranged, and they have not had any contact.

But there are indications, said Rozelle, "we might be able to get together within a week. At least, I hope so."

The commissioner ordered Namath to sell his interest in a popular New York City restaurant-bar called Bachelors III, or face suspension from pro football.

Namath retired rather than divest himself of the business, but has remarked since he wants to continue to play football.

"I've said all along," Rozelle said, "that I'm hopeful Joe will be playing football this fall. I was sorry that Joe retired from pro football. I wouldn't want to say anything else until I talk to Joe."

Browns' Morin Gets Test For Back Ailment

CLEVELAND, Ohio (AP) — Milt Morin, three-year veteran tight end of the Cleveland Browns, is undergoing tests in Mount Sinai Hospital in Cleveland for a back ailment. He is in traction.

"It's probably the result of something I got during the season," Morin said. Dr. Mal Brahms, the National Football League team's orthopedic surgeon, said it would be another day or two before he would know exactly what is wrong with Morin.

The 26-year-old, under instructions from head Browns coach Blanton Collier not to discuss the injury, said he did not recall any specific incident last season which could have injured his back.

Sources said Morin suffered back pains for almost a month before being admitted to the hospital last week.

Jurors Return Verdict In Favor Of Power Firm

LISBON — A Common Pleas Court jury returned a verdict Monday afternoon for the Ohio Power Co., defendant in a $400,000 personal injury suit filed by a Wellsville man.

Fred L. Mobley of 1797 Clark Ave sought damages for injuries received in 1965 while he was working at the 2nd St. pumping station for the city of Wellsville.

He received electrical burns on the legs and back when he came in contact with high tension wires. His left leg had to be amputated below the knee.

His counsel, George Aronson and Bernard Fineman of East Liverpool, claimed the utility was negligent in permitting Mobley to work in proximity to the energized wires.

Defense Counsel William D. Campbell and Ted S. Cooper of Steubenville, in closing argument, said the evidence showed Ohio Power fulfilled its contract with the city and delivered the power to the top of the tower. The city was responsible for it after that, they declared.

All except one of the 12 jurors signed the verdict. The trial began last Tuesday before Judge Joel H. Sharp.

And The Brute Comes Out

Marriage Unmasks Men

By HAL BOYLE

NEW YORK (AP) — Nothing unmasks a man like marriage.

Then the gilt wears off, and the brute beneath Prince Charming discloses the truth of what he really is—a beast in a white shirt.

As many a woman can testify.

Before the ceremony he used to read her love poems as he ran his fingers through her tangled curls. Now he looks up from his morning paper only to gripe about the burnt toast and complain about her curlers.

When she was a bride, he swept her off her feet and lightly carried her bodily across the threshold of their tiny new apartment. But let her try to sit in his lap today and he groans as if she had become an elephant.

Once he promised that if she would only be his, he'd climb the highest mountain and swim the deepest sea for her. Is that still true? Hardly. If she even asks him to carry out the garbage, he wants to make a federal case out of it.

When he was courting her, he willingly borrowed at the bank in order to shower her with pretty presents. Today if she wants to buy a new pair of shoes, he coldly asks her, "Do you think money grows on trees?"

There was a time when he would leap to his feet and rush across the room to light her cigarette. That was before she told the minister, "I do." Now, she feels uneasily, he probably wouldn't get off the sofa to help her if she suddenly burst into flames.

In the old days he was glad to take her dancing until dawn. Now, on the once-a-month he takes her out for an evening, she is lucky if he fox trots her once around a tiny night club dance floor before sinking back exhausted in his chair.

Before, he was interested in her views about everything. Now if she voices an opinion about anything, he says cuttingly, "Look who's talking."

"No wife of mine is ever going to have to work," he told her when he was her suitor. But now that he has been wed to her for a while, he spends half of every Sunday going through the want ad pages looking for a job she can handle.

In her idle hours she wonders what she could have done wrong to change her gallant suitor into the selfish monster he has become.

She did only one thing wrong—she married the bum. Then, like any other husband, he simply reverted to type.

Crash Hurts Area Driver

An 18-year-old area youth escaped serious injury when his truck was demolished in an accident on Substation Rd. just east of Route 267 Monday.

The Ohio Highway Patrol at Lisbon said Louis Brown of Calcutta lost control of a 1968 pickup truck which went off the road into a ditch, struck a large stone and flipped over on its side at 8:05 p.m.

Brown was examined at City Hospital for a possible fracture of the back and released.

A Wellsville woman was injured in a one-car accident on Route 39 just 100 feet east of Route 164 near Salineville at 1:15 a. m. today.

Mary L. O'Neill, 20, of 565½ Main St., Wellsville, lost control of her 1962 sedan on a curve and it struck an embankment.

An Ellwood City, Pa., man was cited following a near collision on the Leetonia Rd. north of Lisbon Monday night.

Carl R. Andric, 19, of 322 N. Market St., Lisbon, was southbound on the Leetonia Rd. about a mile north of Route 164 when he crested a hill and saw a 1969 coach crossways in the road.

Andric's car slid off the road when he applied his brakes to avoid a collision with the coach operated by James E. Chambers, 23, of Ellwood City who was backing out of a private drive.

Chambers was cited for failure to yield the right of way. The accident was timed at 5:45 p.m.

The Salem Democratic Central Committee today certified to the County Election Board the name of William A. Potts as a new candidate for councilman - at - large in the Nov. 4 general election, filling the vacancy caused by the withdrawal of Fred Minamyer, the nominee in the May 6 primaries.

The certification was signed by William Bailey of 215 W. 5th St., chairman, and Thelma Murphy of 386 W. Wilson St., secretary, of the Salem party organization. It also was signed by Don R. Gosney of Columbiana, county party chairman.

Potts resides at 155 S. Union St. He was the runnerup for the three posts in the party's primary. Minamyer withdrew because he had taken a federal job that did not permit him to participate in politics.

2 Motorists Forfeit

LISBON — Two drivers cited early Monday by police here forfeited appearance bonds in mayor's court. They are John Hinchliffe, Lisbon RD 2, stoplight violation and crossing double yellow line, $25 on each count, and Frank P. Larkin, 21, Lyndhurst, stop sign violation, $15.

The expression, "a feather in his cap," is believed to have sprung from an ancient custom in Hungary when a soldier fastened a feather in his cap every time he had killed an enemy.

U.S. Admits Changes In Clay Wiretap

WASHINGTON (AP) — The government has admitted the FBI changed—without informing the Justice Department—a recorded log of wiretapped conversations involving former heavyweight boxing champion Cassius Clay.

In disclosing this to Clay's attorneys, the department Monday contended it did not learn of the FBI action until June 13, several days after copies of what were purported to be the original logs were filed in U.S. District Court in Houston.

John S. Martin Jr. and Michael T. Epstein, who are handling the government's case against Clay, said the original record contained the notation, "Sum up in memo."

But the hand-written phrase was blanked out on documents submitted to the court concerning a Sept. 4, 1964, telephone conversation between Clay and Dr. Martin Luther King Jr.

The discrepancy came to light when Clay's lawyers, unsatisfied with copies, demanded to see the original transcripts. Epstein and Martin then checked with the FBI and found the penned-in portion was left off copies submitted in court.

Government attorneys were unhappy about the affair, expressing concern that the differences would cast doubts on the validity of the documents themselves.

No reason was given for the omission. The FBI had no comment. And special FBI Agent Robert R. Nichols, who supervised the tap on King's telephone, claimed in an affidavit the notation was of no consequence.

"When I initially scanned this log," Nichols said, "I made the handwritten notation 'sum up in memo,' as a flag to myself to consider this as an item to be placed in memorandum form.

"Upon subsequent detailed review of the entire log and evaluation of its contents," he added, "I decided the substance of the information did not warrant the preparation of a memorandum."

As summarized in the record, the conversation which Nichols considered unimportant was one in which Clay advised King to "watch out for them whities."

Clay, sentenced to five years' imprisonment for refusing induction into the armed forces, is seeking further federal court hearings in an effort to overturn his conviction.

One Motion Withdrawn

Council Holds Up Action On Pay Of Lisbon Police

LISBON — Police will have to wait another two weeks for Council's vote on their request for a $50-a-month raise.

A motion to grant a $25 increase was withdrawn Monday night on Councilman Willis Coleman's declaration that consideration should be given the extra policeman — Phil Prasco, Salem linotype operator, who receives $2.25 an hour as part-time officer.

Chief of Police Leon T. Zahrndt presented the department's request to Council June 9, mentioning only the posts of chief and the three full - time officers. The chief receives $475 monthly and the patrolmen $440. The chief also asked an annual clothing allowance of $75 per man.

—:—

RAY BEERS reported for Council's police and finance committees which have had the requests under study:

"With the new increase coming up in the police retirement fund, we feel the best we can do for the police department is a $25-per-month raise, and we don't see how we can do anything about the clothing allowance."

Clerk - Treasurer John Ebert said the village has been paying a sum equal to 14.68 per cent of the policemen's gross salaries into the police pension fund and the percentage will increase to 15.52 for the employer beginning July 1. Each policeman pays 7 per cent of his gross pay into the fund in addition to the town's payment. Ebert said the village pays about $3,000 per year toward the retirement.

Beers said the matter of an hourly rate increase for the extra policeman was not considered at the committees' meeting. Mayor Clyde B. Pike again referred the wage question to the committees and asked for a report at the next meeting.

Council voted to meet July 14 and Aug. 11 and dispense with the July 28 and Aug. 25 meetings unless an emergency rises.

—:—

COUNCILMAN Charles Webber said the fire committee is studying what to do about the fire truck which firemen say should be replaced and will report July 14. Mayor Pike said that will give Council time to ask for a fire truck levy if the committee decides a new truck is needed.

A long discussion followed the mayor's request for a motion authorizing him to advertise for bids to sell the ambulance — a 1960 Cadillac purchased last summer from the Becker Ambulance Co. of Salem after the fire department's ambulance was demolished in a traffic accident near East Fairfield.

The volunteer fire department discontinued the ambulance service last September. Making the announcement to Council, Chief W. A. Peters said the firemen were dropping the service because they are not sufficiently insured against accidents and the ambulance is unsafe.

Coleman said the ambulance now has an Ohio Highway Patrol safety sticker on the window. He said he talked to six firemen who are in favor of operating the ambulance again. He said they indicated there are more who feel as they do.

Harold Adams, fire department secretary who was present as a visitor, was asked how he felt about the ambulance. He replied that he did not want any part of it. The majority of the firemen voted to discontinue the service, he added.

—:—

PETE GEIGER of E. Chestnut St., a visitor, said he recalled Dan Becker telling Council last year that if it decided not to use the ambulance he would buy it back at the $1,350 purchase price. "There were no strings attached," Geiger said.

He wondered why Council did not ask Becker to buy the ambulance when firemen several weeks ago suggested that Council sell it and use the money to buy a utility truck and tank to fight grass and brush fires in Center and Elkrun Townships.

Mayor Pike replied he had asked Becker about buying the ambulance and Becker said he had purchased two new ambulances and is no longer interested in the one in Lisbon's garage.

Solicitor Joseph Baronzzi said both Elkrun and Center townships have an equity in the ambulance and their wishes should be considered before a sale is made.

A motion to sell, subject to the conditions mentioned by the solicitor, prevailed by a 4 to 2 vote. President Bill Mattix, Beers, Larry Evans and Webber voted for the motion and Coleman and William Robinson opposed it.

Mayor Pike referred to the street light committee a request for a light at Logtown Rd. and an alley between the McGrew and Toolis properties.

2 Motorists Forfeit

LISBON — Two drivers cited early Monday by police here forfeited appearance bonds in mayor's court. They are John Hinchliffe, Lisbon RD 2, stoplight violation and crossing double yellow line, $25 on each count, and Frank P. Larkin, 21, Lyndhurst, stop sign violation, $15.

The expression, "a feather in his cap," is believed to have sprung from an ancient custom in Hungary when a soldier fastened a feather in his cap every time he had killed an enemy.

U.S. Admits Changes In Clay Wiretap

WASHINGTON (AP) — The government has admitted the FBI changed—without informing the Justice Department—a recorded log of wiretapped conversations involving former heavyweight boxing champion Cassius Clay.

In disclosing this to Clay's attorneys, the department Monday contended it did not learn of the FBI action until June 13, several days after copies of what were purported to be the original logs were filed in U.S. District Court in Houston.

John S. Martin Jr. and Michael T. Epstein, who are handling the government's case against Clay, said the original record contained the notation, "Sum up in memo."

But the hand-written phrase was blanked out on documents submitted to the court concerning a Sept. 4, 1964, telephone conversation between Clay and Dr. Martin Luther King Jr.

The discrepancy came to light when Clay's lawyers, unsatisfied with copies, demanded to see the original transcripts. Epstein and Martin then checked with the FBI and found the penned-in portion was left off copies submitted in court.

Government attorneys were unhappy about the affair, expressing concern that the differences would cast doubts on the validity of the documents themselves.

No reason was given for the omission. The FBI had no comment. And special FBI Agent Robert R. Nichols, who supervised the tap on King's telephone, claimed in an affidavit the notation was of no consequence.

"When I initially scanned this log," Nichols said, "I made the handwritten notation 'sum up in memo,' as a flag to myself to consider this as an item to be placed in memorandum form.

"Upon subsequent detailed review of the entire log and evaluation of its contents," he added, "I decided the substance of the information did not warrant the preparation of a memorandum."

As summarized in the record, the conversation which Nichols considered unimportant was one in which Clay advised King to "watch out for them whities."

Clay, sentenced to five years' imprisonment for refusing induction into the armed forces, is seeking further federal court hearings in an effort to overturn his conviction.

One Motion Withdrawn

Council Holds Up Action On Pay Of Lisbon Police

LISBON — Police will have to wait another two weeks for Council's vote on their request for a $50-a-month raise.

A motion to grant a $25 increase was withdrawn Monday night on Councilman Willis Coleman's declaration that consideration should be given the extra policeman — Phil Prasco, Salem linotype operator, who receives $2.25 an hour as part-time officer.

Chief of Police Leon T. Zahrndt presented the department's request to Council June 9, mentioning only the posts of chief and the three full - time officers. The chief receives $475 monthly and the patrolmen $440. The chief also asked an annual clothing allowance of $75 per man.

—:—

RAY BEERS reported for Council's police and finance committees which have had the requests under study:

"With the new increase coming up in the police retirement fund, we feel the best we can do for the police department is a $25-per-month raise, and we don't see how we can do anything about the clothing allowance."

Clerk - Treasurer John Ebert said the village has been paying a sum equal to 14.68 per cent of the policemen's gross salaries into the police pension fund and the percentage will increase to 15.52 for the employer beginning July 1. Each policeman pays 7 per cent of his gross pay into the fund in addition to the town's payment. Ebert said the village pays about $3,000 per year toward the retirement.

Beers said the matter of an hourly rate increase for the extra policeman was not considered at the committees' meeting. Mayor Clyde B. Pike again referred the wage question to the committees and asked for a report at the next meeting.

Council voted to meet July 14 and Aug. 11 and dispense with the July 28 and Aug. 25 meetings unless an emergency rises.

—:—

COUNCILMAN Charles Webber said the fire committee is studying what to do about the fire truck which firemen say should be replaced and will report July 14. Mayor Pike said that will give Council time to ask for a fire truck levy if the committee decides a new truck is needed.

A long discussion followed the mayor's request for a motion authorizing him to advertise for bids to sell the ambulance — a 1960 Cadillac purchased last summer from the Becker Ambulance Co. of Salem after the fire department's ambulance was demolished in a traffic accident near East Fairfield.

The volunteer fire department discontinued the ambulance service last September. Making the announcement to Council, Chief W. A. Peters said the firemen were dropping the service because they are not sufficiently insured against accidents and the ambulance is unsafe.

Coleman said the ambulance now has an Ohio Highway Patrol safety sticker on the window. He said he talked to six firemen who are in favor of operating the ambulance again. He said they indicated there are more who feel as they do.

Harold Adams, fire department secretary who was present as a visitor, was asked how he felt about the ambulance. He replied that he did not want any part of it. The majority of the firemen voted to discontinue the service, he added.

—:—

PETE GEIGER of E. Chestnut St., a visitor, said he recalled Dan Becker telling Council last year that if it decided not to use the ambulance he would buy it back at the $1,350 purchase price. "There were no strings attached," Geiger said.

He wondered why Council did not ask Becker to buy the ambulance when firemen several weeks ago suggested that Council sell it and use the money to buy a utility truck and tank to fight grass and brush fires in Center and Elkrun Townships.

Mayor Pike replied he had asked Becker about buying the ambulance and Becker said he had purchased two new ambulances and is no longer interested in the one in Lisbon's garage.

Solicitor Joseph Baronzzi said both Elkrun and Center townships have an equity in the ambulance and their wishes should be considered before a sale is made.

A motion to sell, subject to the conditions mentioned by the solicitor, prevailed by a 4 to 2 vote. President Bill Mattix, Beers, Larry Evans and Webber voted for the motion and Coleman and William Robinson opposed it.

Mayor Pike referred to the street light committee a request for a light at Logtown Rd. and an alley between the McGrew and Toolis properties.

INVITATION FOR BID PROPOSALS
to
ESTABLISH AND OPERATE CERTAIN DEFINED GENERAL AVIATION SUPPORT SERVICE FACILITIES
at
COLUMBIANA COUNTY, OHIO, AIRPORT

PURPOSE

The purpose of this Invitation is to solicit responses from all interested and qualified respondents desiring the right to establish a fixed base operation at Columbiana County Airport.

The airport is owned by the County of Columbiana and operated by the Airport Authority hereinafter referred to as the Authority.

One of the respondents to this Invitation who meets the requirements of the Authority will be selected to assume all the rights, duties, privileges and responibilities contemplated under this Invitation as well as those responsibilities and privileges which the selected respondent and the Authority mutually agree are to be enjoyed. However, it is not the intent of the Authority to grant the selected respondent an exclusive right, during the term of the Lease to be entered into, to provide any services or dispense any article or accessory. The Authority reserves the right to grant others certain rights and privileges upon the Airport which are identical in part, or whole, to those granted to the selected respondent, provided, however, that the Authority in the exercise of its discretion may require the compliance of such additional operators to minimum standards to qualify to do business on the airport. The Authority also covenants that if it should permit another operator to provide services of a nature categorized as primary commercial services elsewhere in this Invitation, under rates, terms and conditions more favorable than those imposed on the selected respondent, the rates, terms and conditions of the Lease will be subject to renegotiation.

SUBMISSION OF PROPOSALS

Proposals must be submitted in duplicate, in the manner and detail specified in this Invitation, signed by an authorized officer of the organization, enclosed in a sealed envelope or package, identified as follows and mailed or delivered so as to be received by the Authority no later than 4:00 P.M. 10th day of July, 1969. Proposals received after this date and time will be returned unopened.

Chairman Columbiana County
Airport Authority
County Court House
Lisbon, Ohio 44432

It is essential that the information and requirements of the Invitation be carefully studied and adhered to in preparation and submission of proposals. Failure to comply with the instructions of the Invitation may, at the discretion of the Authority be cause for rejection of the proposal.

The County Commissioners reserve the right to reject any or all proposals, and to reject the offer of any respondent when, in their opinion, it would be in the County's best interest to do so.

Submission of a proposal shall constitute a valid offer for acceptance by the County Commissioners for a period of thirty (30) days following the due date for submission of proposals.

A proposal guarantee in the sum of One Thousand Dollars ($1,000) must be submitted with each proposal to guarantee execution of a contract with the selected respondent on the basis of his proposal.

The guarantee, at the option of the respondent, may be in the form of a certified check, cashier's check or money order made payable to the Columbiana County Commissioners, or may be in the form of a bid bond, executed by the respondent and any surety authorized by the Treasurer of Columbiana County to act as surety for such bond.

The guarantee, if other than a bond, will be returned to all unsuccessful respondents upon execution of a contract with the selected respondent.

to
ESTABLISH AND OPERATE
CERTAIN DEFINED
GENERAL AVIATION SUPPORT
SERVICE FACILITIES
at
COLUMBIANA COUNTY, OHIO,
AIRPORT

PURPOSE

The purpose of this Invitation is to solicit responses from all interested and qualified respondents desiring the right to establish a fixed base operation at Columbiana County Airport.

The airport is owned by the County of Columbiana and operated by the Airport Authority hereinafter referred to as the Authority.

One of the respondents to this Invitation who meets the requirements of the Authority will be selected to assume all the rights, duties, privileges and responibilities contemplated under this Invitation as well as those responsibilities and privileges which the selected respondent and the Authority mutually agree are to be enjoyed. However, it is not the intent of the Authority to grant the selected respondent an exclusive right, during the term of the Lease to be entered into, to provide any services or dispense any article or accessory. The Authority reserves the right to grant others certain rights and privileges upon the Airport which are identical in part, or whole, to those granted to the selected respondent, provided, however, that the Authority in the exercise of its discretion may require the compliance of such additional operators to minimum standards to qualify to do business on the airport. The Authority also covenants that if it should permit another operator to provide services of a nature categorized as primary commercial services elsewhere in this Invitation, under rates, terms and conditions more favorable than those imposed on the selected respondent, the rates, terms and conditions of the Lease will be subject to renegotiation.

SUBMISSION OF PROPOSALS

Proposals must be submitted in duplicate, in the manner and detail specified in this Invitation, signed by an authorized officer of the organization, enclosed in a sealed envelope or package, identified as follows and mailed or delivered so as to be received by the Authority no later than 4:00 P.M. 10th day of July, 1969. The County Commissioners reserve the right to reject any or all proposals, and to reject the offer of any respondent when, in their opinion, it would be in the County's best interest to do so.

Submission of a proposal shall constitute a valid offer for acceptance by the County Commissioners for a period of thirty (30) days following the due date for submission of proposals.

A proposal guarantee in the sum of One Thousand Dollars ($1,000) must be submitted with each proposal to guarantee execution of a contract with the selected respondent on the basis of his proposal.

ANSWER: The question sounds confusing, and as you study our picture you may feel more confused still. But we trust your knowledge of words to straighten yourself out. Just for the record, here's the correct answer. An ellipse is a rounded outline, but instead of being perfectly round like a circle, it is narrower on two sides. A neat way to see an ellipse is to draw around a plate to make a perfect circle, then turn the paper and look at your drawing somewhat edgewise. You'll see a perfect ellipse. An eclipse is something very different. It refers to those times when the moon passes between the sun and earth, which is called a solar eclipse. But it may also mean the time when the moon enters the shadow which stretches back from the earth, away from the sun. This is called a lunar eclipse. Eclipses are rare events, because sun, moon and earth are very seldom in the exact relationship to each other to make an eclipse possible. You will see from these answers that our students gave the right explanations — only they were for the wrong word.

ANN LANDERS

Many Kinds Of Tears

By Ann Landers

Dear Ann Landers: I'm a sergeant home on leave and now am reading the Landers column which my family has cut out and saved for me.

I just this minute came across the letter from a woman whose husband spanked their 3-year-old son whenever he cried because he believes tears were a sign of unmanliness.

I had the privilege of serving with the Green Beret. He was about 25, over 6 feet tall, handsome, rugged, and he had made dozens of parachute jumps. I saw him perform many acts of bravery which he considered part of his job.

This man was generous and tender beyond description. He did favors for strangers that most people wouldn't have done for a close friend.

During the 11 months we served together I saw him cry at least five times. I never thought less of him because of it. I admired and respected him more than anyone I've ever known.

The fact that he was capable of tears showed he was a warm-hearted human who responded to other humans. The Green Beret always will serve as my model of what a real man ought to be. — SGT. J.V.I.

-:-

Dear Sergeant: Your choice of heroes says a great deal about you, Sir. Thanks for writing a poignant and impressive letter.

Fault Finder

Dear Ann: My frigid wife and I have been arguing for several years about a subject which you discussed in your column recently. We've decided to let you be the judge.

My wife says she's frigid on account of me. I say frigidity in women is caused not by the husband, but by the girl's mother. I might add in passing that my wife is very much like her old lady. May we have your verdict? — REJECTED IN SPOKANE.

-:-

Dear Re: I'm no judge and I don't hand down verdicts. I do have opinions, however, and I also consult with wiser heads than mine. Here's your answer:

Since your wife is a chip off the old glacier it's more than likely that her mother taught her to fear, hate and feel guilty about sex. But — a warm, loving, tender, mature, considerate husband can melt away the icicles and teach his wife to be a rewarding bed partner.

In the words of a French philosopher: "There are no frigid women. Only clumsy, inconsiderate men."

Rues Tatoos

Dear Ann: My husband had some dirty pictures tatooed on his arms during a drunken spree when he served in the Merchant Marine several years ago. He's so ashamed of the pictures he refuses to be seen in public wearing a short-sleeved sport shirt.

Recently he brought home a magazine that carried this ad: "Tattoo removing in your own home. No Needles. A do-it-yourself kit for $14. Satisfaction guaranteed or your money back."

He wants to send away for it but I think its a racket. Is it Please answer — MONTGOMERY, ALA.

-:-

Dear Mont: It's probably a racket. Clip the adl and send to the Better Business Bureau. And send Tattoo Boy to a dermatologist who can do the job, properly.

Ann Landers will be glad to help you with your problems. Send them to her in care of The Review, enclosing a self-addressed, stamped envelope.

Columbus Chief Reinstates Ten Police Officers

COLUMBUS, Ohio (AP) — Police Chief Robert Baus has reinstated 10 officers named recently in a gambling payoffs scandal.

The men returned to work today in nonsensitive jobs at police headquarters.

The officers were relieved of duty June 5 after a federal grand jury indicted eight of them on charges of conspiring with gamblers and named the other two as coconspirators.

Baus said Monday he had no alternative but to return the men to duty since he has been unable to obtain immediate court clarification of his authority to suspend the men without a Civil Service Commission hearing.

"I feel its necessary to put the men back to work," the chief said.

Indicted were Capts. Robert Taylor and Jerry Ryan Jr., Lt. William Voorhis, Sgt. Franklin Starkey and Patrolmen Robert Martin, Robert Brodt, Gary Roach and Robert Marcum.

Sgts. Melvin Helmandollar and John Kaiser were named coconspirators but not charged.

City Atty. John Young asked common pleas court last week to interpret Baus' authority to suspend the officers without following Civil Service procedure, but authorities said a hearing on the petition is not possible until July 21.

Dived After Pants

NEW YORK (AP) — Sidney Eagle saved his pants by jumping into the trunk of a fleeing auto and shouting for help. Thieves took two boxes of pants from Eagle's shop, shoved them into the open trunk of their car and drove away. Eagle, 65, leaped onto the boxes as the car drove away. His shouts attracted two policemen in a patrol car who halted the auto and arrested three men.
